DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Artificial Intelligence Foundation Training

Explain how AI, machine learning and generative AI work, set up a Python environment and train a first model.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Artificial Intelligence course path, you will be able to:

1

Build machine learning models

Prepare data and train, tune and evaluate classical and deep learning models in Python.

2

Apply LLMs and RAG

Use prompt engineering, embeddings and retrieval to build useful generative AI applications.

3

Run AI in production

Deploy, monitor, secure and govern AI systems with MLOps practices.

WHAT THE FOUNDATION LEVEL ADDS

AI concepts, Python setup and first model

Hands-on: Train your first classifier. Set up Jupyter with pandas and scikit-learn, explore a small dataset and train and evaluate a first classification model.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Artificial Intelligence and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Artificial Intelligence on real work.
- Leads and managers who want first-hand familiarity with Artificial Intelligence.

BEFORE YOU START

- No prior Artificial Intelligence experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Artificial Intelligence Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: AI concepts, Python setup and first model

New at this level

1. What AI is: narrow and general AI, machine learning, deep learning and generative AI in context
2. Classical AI: search algorithms such as BFS, DFS and A*, rule-based and expert systems
3. Types of learning: supervised, unsupervised, self-supervised and reinforcement learning
4. Real-world use cases: vision, language, recommendation, forecasting and automation
5. Python environment: Anaconda or venv, pip, Jupyter Notebook and VS Code setup
6. Python data stack: NumPy arrays, pandas DataFrames and Matplotlib plots
7. Math for AI: vectors and matrices, probability, statistics and the intuition of gradients
8. Data basics: datasets, features, labels, train/test splits and data quality
9. First model: training a scikit-learn classifier on the Iris dataset and making predictions
10. Evaluation basics: accuracy, confusion matrix and why a held-out test set matters
11. Responsible AI basics: bias, fairness, privacy and transparency from day one

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Train your first classifier

Set up Jupyter with pandas and scikit-learn, explore a small dataset and train and evaluate a first classification model.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Artificial Intelligence levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR ARTIFICIAL INTELLIGENCE TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
