Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Apache Camel Enterprise Integration Foundation Training

Explain enterprise integration patterns and Camel's architecture, set up a project and run a first route.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation 1 day · This curriculum	**Essential** 2 days · Next step	**Intermediate** 3 days · Later	**Advanced** 5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	10 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Apache Camel Enterprise Integration course path, you will be able to:

1

Design with integration patterns

Model integration problems with Enterprise Integration Patterns and implement them as Camel routes.

2

Build reliable integrations

Connect files, APIs, messaging, databases and cloud services with robust error handling and transactions.

3

Operate Camel in production

Monitor, scale, secure and migrate Camel applications on modern cloud-native runtimes.

WHAT THE FOUNDATION LEVEL ADDS

Integration concepts, Camel architecture and first route

Hands-on: First file-polling Camel route. Create a Camel project with JBang, build a route that polls a folder, logs each file and moves it to an archive directory.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Apache Camel Enterprise Integration and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Apache Camel Enterprise Integration on real work.
- Leads and managers who want first-hand familiarity with Apache Camel Enterprise Integration.

BEFORE YOU START

- No prior Apache Camel Enterprise Integration experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Apache Camel Enterprise Integration Foundation Training agenda

10 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Integration concepts, Camel architecture and first route

New at this level

1. Enterprise integration challenges: point-to-point sprawl, messaging and the Enterprise Integration Patterns catalogue
2. What Apache Camel is: an integration framework with 300+ components, EIPs and multiple DSLs
3. Camel architecture: CamelContext, routes, endpoints, components, processors and the routing engine
4. Exchange and Message: headers, body, properties, exchange patterns InOnly and InOut
5. Camel 4 runtimes: Java 17+, Camel Main, Spring Boot 3 and Quarkus, and when to pick each
6. Project setup: Maven archetypes, Camel JBang (camel init and camel run) and IDE tooling
7. Route DSLs: Java DSL, YAML DSL and XML DSL compared on the same route
8. Endpoint URIs: scheme, context path and options, and reading component documentation
9. Core components: timer, log, file and direct to build simple flows
10. First route: a timer-to-log route, then file-to-file copy with a filename filter

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

First file-polling Camel route

Create a Camel project with JBang, build a route that polls a folder, logs each file and moves it to an archive directory.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Apache Camel Enterprise Integration levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
