DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Apache Archiva Foundation Training

Install Apache Archiva, understand Maven repository concepts and browse and search artifacts through the web UI.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation 1 day · This curriculum	**Essential** 2 days · Next step	**Intermediate** 3 days · Later	**Advanced** 5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Apache Archiva course path, you will be able to:

1

Run a Maven repository

Install and use Archiva to proxy, host and search Maven artifacts for a team.

2

Secure and administer Archiva

Configure databases, LDAP-backed roles, audit logging, health reports and REST automation.

3

Maintain and migrate safely

Manage storage, backups and hardening, and move repositories to a supported tool when needed.

WHAT THE FOUNDATION LEVEL ADDS

Repository concepts, installation and browsing

Hands-on: Install Archiva and proxy Maven Central. Install Archiva, create the admin account and build a Maven project whose dependencies are proxied and cached by Archiva.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Apache Archiva and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Apache Archiva on real work.
- Leads and managers who want first-hand familiarity with Apache Archiva.

BEFORE YOU START

- No prior Apache Archiva experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Apache Archiva Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 **Foundation: Repository concepts, installation and browsing** — New at this level

1. Why a repository manager: proxying Maven Central, hosting internal artifacts and faster, reproducible builds
2. Maven repository concepts: local, remote and central repositories and groupId, artifactId and version coordinates
3. Apache Archiva overview: managed and remote repositories, proxy connectors and its current project status
4. Archiva architecture: standalone Jetty bundle versus WAR deployment, Redback security and the search index
5. Installing Archiva: Java requirements, the standalone distribution, running as a service and the first admin user
6. Using the graphical administration interface: repositories, proxy connectors, users and appearance settings
7. Default repositories: internal, snapshots and the central remote repository
8. Browsing: navigating groups, artifacts and versions and viewing POM details and dependencies
9. Searching: quick search and advanced search by groupId, artifactId, version and class name
10. Maven basics for Archiva users: settings.xml, mvn install versus mvn deploy
11. First proxy test: building a Maven project that resolves its dependencies through Archiva

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION **Install Archiva and proxy Maven Central**

Install Archiva, create the admin account and build a Maven project whose dependencies are proxied and cached by Archiva.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Apache Archiva levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
