DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Build And Release Foundation Training

Explain the build and release lifecycle, use Linux, Windows and Git confidently and automate a first build that produces an artifact.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	**Essential**	**Intermediate**	**Advanced**
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Build And Release course path, you will be able to:

1

Automate builds and packaging

Build, version and package Java and .NET software with Maven, Gradle, Ant and MSBuild and publish it to Nexus.

2

Run CI/CD pipelines

Implement Jenkins pipelines with tests, quality gates and configuration management for repeatable releases.

3

Govern releases at scale

Apply deployment strategies, supply chain controls and DORA metrics to release software safely across teams.

WHAT THE FOUNDATION LEVEL ADDS

SCM concepts, Linux, Git and builds

Hands-on: Automate a first Java build. Clone a Java project, build and test it with Maven from a Bash script and archive a versioned JAR as the release artifact.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Build And Release and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Build And Release on real work.
- Leads and managers who want first-hand familiarity with Build And Release.

BEFORE YOU START

- No prior Build And Release experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Build And Release Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: SCM concepts, Linux, Git and builds

New at this level

1. Build and release engineering: role, responsibilities and the problem it solves for development and operations
2. Software configuration management: identification, version control, change control, audits and its elements
3. Concepts: version management, build management, packaging management, release and deployment management
4. Linux essentials: user and admin commands, permissions, processes, services, cron and log files
5. Windows administration fundamentals: services, scheduled tasks, IIS basics and PowerShell for admins
6. Git fundamentals: clone, commit, branch, merge, tags, remotes and pull requests
7. Subversion (svn) fundamentals: checkout, commit, trunk/branches/tags layout and migrating to Git with git svn
8. Build automation concepts: compile, test, package, reproducible and incremental builds
9. Apache Maven fundamentals: pom.xml, lifecycle phases, dependencies, repositories and mvn clean verify
10. Bash shell scripting fundamentals: variables, loops, functions, exit codes and build helper scripts
11. First pipeline: commit, build, run unit tests and archive a versioned artifact

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Automate a first Java build

Clone a Java project, build and test it with Maven from a Bash script and archive a versioned JAR as the release artifact.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Build And Release levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR BUILD AND RELEASE TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
