OUTCOMES

What you will achieve

By the end of the Chocolatey course path, you will be able to:

1

Manage Windows software

Install, pin, upgrade and remove applications on Windows quickly and repeatably with choco.

2

Build and host packages

Create parameterized Chocolatey packages and publish them to internal repositories.

3

Run Chocolatey at scale

Maintain packages, automate updates and secure software delivery across Windows fleets.

WHAT THE FOUNDATION LEVEL ADDS

Install Chocolatey and manage applications

Hands-on: Build a developer workstation with choco. Install Chocolatey on a Windows VM, then install, version-pin and upgrade a set of developer tools and remove one cleanly.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Chocolatey and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Chocolatey on real work.
- Leads and managers who want first-hand familiarity with Chocolatey.

BEFORE YOU START

- No prior Chocolatey experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Chocolatey Foundation Training agenda

10 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Install Chocolatey and manage applications

New at this level

1. Why Chocolatey: Windows package management, NuGet-based packages and the Community Repository
2. Installing Chocolatey: PowerShell install command, execution policy and verifying choco
3. Uninstalling Chocolatey: removing the install folder, environment variables and PATH entries
4. Getting started: using Chocolatey to install applications with choco install and -y
5. Find apps: searching the Chocolatey Community Repository (formerly the Gallery) and package pages
6. Work with versions: installing a specific version, listing installed packages and choco info
7. Removing software: using Chocolatey to uninstall applications cleanly
8. Command reference basics: list and search, info, install, uninstall and passing args to choco
9. Upgrades: choco upgrade for one package and choco upgrade all
10. Chocolatey GUI: using the GUI application for browsing and managing packages

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Build a developer workstation with choco

Install Chocolatey on a Windows VM, then install, version-pin and upgrade a set of developer tools and remove one cleanly.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Chocolatey levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
