DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Container Security Foundation Training

Explain the container threat model and isolation primitives, scan images for vulnerabilities and write safer Dockerfiles.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	10 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Container Security course path, you will be able to:

1

Build secure images

Produce minimal, scanned, signed images with SBOMs and safe Dockerfiles.

2

Protect running workloads

Apply pod security, admission policies, RBAC and runtime detection in Kubernetes.

3

Govern container security

Design defense in depth and compliance evidence for multi-tenant container platforms.

WHAT THE FOUNDATION LEVEL ADDS

Container threats, isolation and image scanning

Hands-on: Harden and scan a first image. Scan an application image with Trivy, rewrite its Dockerfile to run as non-root on a smaller base and show the drop in vulnerabilities.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Container Security and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Container Security on real work.
- Leads and managers who want first-hand familiarity with Container Security.

BEFORE YOU START

- No prior Container Security experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Container Security Foundation Training agenda

10 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Container threats, isolation and image scanning

New at this level

1. Container threat model: image, registry, runtime, orchestrator, host and supply chain risks
2. Isolation primitives: namespaces, cgroups, capabilities, seccomp, AppArmor and SELinux
3. Image anatomy: layers, base images, tags versus digests
4. Common weaknesses: outdated packages, secrets in images, running as root and privileged mode
5. Image scanning: Trivy and Grype, CVE severity and fixed versions
6. Dockerfile security: minimal base images, non-root USER, COPY versus ADD and .dockerignore
7. Registry security: private registries, access control and immutable tags
8. Docker daemon security: socket exposure and rootless mode
9. Benchmarks: CIS Docker Benchmark and docker-bench-security
10. First hardening pass: scan, fix and rescan an application image

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Harden and scan a first image

Scan an application image with Trivy, rewrite its Dockerfile to run as non-root on a smaller base and show the drop in vulnerabilities.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Container Security levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR CONTAINER SECURITY TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
