CONTAINER SECURITY · TRAINING PROGRAM

Container Security Training

A practical, hands-on Container Security Training curriculum: 13 topics over 3 days. Learn live online in a small batch, as a private corporate batch, or self-paced with one year of LMS access.

LIVE ONLINE Max 8-10 hours	**CORPORATE** Private team batch, on demand	**SELF-PACED VIDEO** 1-year LMS access
BATCH SIZE Max 10 learners	**NEXT BATCHES** 1st of every month · weekends: first Saturday	**CERTIFICATE** Verifiable certificate of completion

INSIDE THIS CURRICULUM

Who should attend	Objectives, audience, prerequisites
Agenda	13 topics over 3 days
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

COURSE FIT

Who this program is for

Use this page to decide whether Container Security Training matches your role and experience.

1

Objectives

Understand the core concepts and usage model, apply practical workflows through examples and guided tasks, and prepare for implementation, certification or team adoption.

2

Who should attend

Developers, DevOps engineers, administrators, SREs, security engineers, platform teams, release teams, technical leads and corporate teams working with this topic.

3

Before you start

Basic computer literacy and awareness of software, operations, cloud, DevOps or security workflows is helpful. Deep programming experience is not needed unless the topic requires it.

AGENDA AT A GLANCE · 13 TOPICS OVER 3 DAYS

Day 1

4 topics · Introduction to Containers: Understanding the basics of containerization, container orches

Day 2

3 topics · Secure Container Deployment: Discussing secure deployment strategies, such as using immuta

Day 3

6 topics · Secure Container Image Build: Hands-on session to build secure container images using best

AGENDA · 13 TOPICS OVER 3 DAYS

Container Security Training agenda

Days are for corporate (day-wise) delivery; live online batches cover the agenda in max 8-10 hours.

DAY 1

4 topics

1. Introduction to Containers: Understanding the basics of containerization, container orchestration, and their benefits.
2. Container Security Challenges: Discussing the unique security challenges associated with containers, including image vulnerabilities, runtime threats, and container escape attacks.
3. Container Runtime Security: Exploring runtime protection mechanisms, such as container isolation, resource constraints, seccomp profiles, and SELinux/AppArmor policies.
4. Container Network Security: Discussing network segmentation, network policies, and encryption options to secure container-to-container and container-to-host communications.

DAY 2

3 topics

5. Secure Container Deployment: Discussing secure deployment strategies, such as using immutable infrastructure, rolling updates, canary deployments, and blue-green deployments.
6. Incident Response and Forensics: Discussing incident response processes, container forensics techniques, and container runtime visibility tools for effective incident management.
7. Security Automation and Orchestration: Introducing automation techniques and tools for continuous security scanning, policy enforcement, and remediation in container environments.

DAY 3

6 topics

8. Secure Container Image Build: Hands-on session to build secure container images using best practices, scanning tools, and secure coding techniques.
9. Container Runtime Security: Practical exercises to implement container runtime security controls, such as resource constraints, isolation, and security policies.
10. Container Orchestration Security: Workshop on implementing security measures in Kubernetes, including RBAC, network policies, and secrets management.
11. Container Security Monitoring and Incident Response: Hands-on lab to set up container security monitoring tools, analyze logs, and perform incident response simulations.
12. Secure Container Deployment and Upgrades: Workshop on secure deployment strategies, including immutable infrastructure, rolling updates, and canary deployments.
13. Q&A and Open Discussion: A dedicated session for participants to ask questions, share experiences, and discuss real-world container security challenges.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	This program plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate	Planned with your team	A private batch for your team, on demand, with examples mapped to your platforms.	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on tasks and assignments. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
