DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Dataops Foundation Training

Explain DataOps in practical terms, find waste in your data value stream and plan quick wins with a 30/60/90-day roadmap.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	**Essential**	**Intermediate**	**Advanced**
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	14 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Dataops course path, you will be able to:

1

Apply DataOps principles

Map data value streams, remove waste and run data as products with clear SLAs.

2

Automate tested data pipelines

Build pipelines with Git, dbt, quality checks, CI/CD and infrastructure as code.

3

Scale governed data platforms

Operate observable, secure and cost-aware data platforms across many domains.

WHAT THE FOUNDATION LEVEL ADDS

DataOps principles, assembly line and roadmap

Hands-on: Value stream map of one pipeline. Map one real pipeline from source to dashboard, measure its lead time and failure points, and choose your next three improvements.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Dataops and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Dataops on real work.
- Leads and managers who want first-hand familiarity with Dataops.

BEFORE YOU START

- No prior Dataops experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Dataops Foundation Training agenda

14 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: DataOps principles, assembly line and roadmap

New at this level

1. What DataOps is and is not: collaborative, automated data flows for predictable value; not a tool and not only DevOps for data
2. DataOps Manifesto: lean analytics-as-manufacturing, continuous improvement and quality at every station
3. From past to present: batch BI and waterfall analytics to cloud data platforms, streaming plus batch and product thinking
4. Organisational pain: siloed teams, environment drift, schema breaks, rework, governance, audit and platform sprawl
5. Value stream waste: queues, manual gates and duplicated pipelines found on a value stream map
6. Principles to practice: small batches, fast feedback, quality at the source, automation, reproducibility, observability
7. Release processes: mapping DevOps to DataOps with CI/CD for datasets, SQL and ELT code, policies and environment promotion
8. Operating model and roles: data products with SLAs and SLOs for freshness, completeness and accuracy, golden sources
9. Platform enablement: paved paths, review and sign-off of code plus data contracts
10. The data assembly line: ingest, prepare, validate, transform, serve, observe; dev to stage to prod with rollback readiness
11. CI/CD for data concepts: Git workflows, PR checks for SQL and contracts, quality gates, artifacted releases, auditable runs
12. Orchestration patterns: DAGs, retries, SLAs, backfills, event or schedule driven, hybrid; Apache Airflow and managed options
13. Governance and security: access control, tagging, lineage, policy-as-code, PII; Snowflake Horizon lineage and quality monitoring
14. DORA for data and transition playbook: flow and quality metrics, quick wins, 30/60/90-day plan, checklist and glossary

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Value stream map of one pipeline

Map one real pipeline from source to dashboard, measure its lead time and failure points, and choose your next three improvements.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Dataops levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR DATAOPS TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
