DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Deepwatch Foundation Training

Explain how a managed detection and response service like Deepwatch works and prepare your environment for onboarding.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	12 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Deepwatch course path, you will be able to:

1

Operate MDR day to day

Review investigations, approve response actions and tune detections with your MDR provider.

2

Improve detection coverage

Measure telemetry and ATT&CK coverage and close the gaps that matter most.

3

Govern the MDR programme

Run governance, metrics and incident readiness for a co-managed security operation.

WHAT THE FOUNDATION LEVEL ADDS

MDR concepts, SOC models and onboarding

Hands-on: Prepare an MDR onboarding package. Build an asset inventory, log source plan and escalation matrix for a fictional company ready for MDR onboarding.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Deepwatch and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Deepwatch on real work.
- Leads and managers who want first-hand familiarity with Deepwatch.

BEFORE YOU START

- No prior Deepwatch experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Deepwatch Foundation Training agenda

12 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: MDR concepts, SOC models and onboarding

New at this level

1. Managed security fundamentals: MSSP versus MDR versus in-house SOC, and where Deepwatch fits
2. MDR service model: 24x7 monitoring, detection, investigation, response actions and customer responsibilities
3. SOC fundamentals: tiers, alert lifecycle, triage, escalation paths and service level agreements
4. Security telemetry: endpoint, network, identity, cloud and application log sources and why coverage matters
5. SIEM and EDR basics: how SIEM correlation and endpoint detection and response work together in MDR
6. Onboarding planning: asset inventory, critical systems, contacts, escalation matrix and maintenance windows
7. Log source onboarding: syslog, forwarders, cloud API connectors and verifying data arrives correctly
8. Customer portal basics: viewing investigations, tickets, reports and service health in the Deepwatch platform
9. Alert and investigation basics: severity, true and false positives, evidence and recommended actions
10. Shared responsibility: what the provider handles, what your team must approve and act on
11. Key metrics: mean time to detect, mean time to respond and log source coverage
12. First walkthrough: follow a realistic alert from detection to customer notification and closure

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Prepare an MDR onboarding package

Build an asset inventory, log source plan and escalation matrix for a fictional company ready for MDR onboarding.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Deepwatch levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
