DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

DevOps Foundation Training

Explain DevOps principles and DORA metrics, map a value stream, and run a first automated build-and-test pipeline on every push.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	**Essential**	**Intermediate**	**Advanced**
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	13 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the DevOps course path, you will be able to:

1

Apply DevOps principles

Use DevOps culture, flow and DORA metrics to improve how your team delivers software.

2

Automate secure delivery

Build CI/CD, GitOps and DevSecOps pipelines from commit to Kubernetes production.

3

Scale reliable platforms

Run SRE practices, platform engineering and supply chain security across an organisation.

WHAT THE FOUNDATION LEVEL ADDS

DevOps culture, flow metrics and first pipeline

Hands-on: Map a value stream, automate builds. Map your team's delivery value stream with DORA baselines, then create a GitHub Actions workflow that builds and tests a demo service on every push.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to DevOps and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use DevOps on real work.
- Leads and managers who want first-hand familiarity with DevOps.

BEFORE YOU START

- No prior DevOps experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

DevOps Foundation Training agenda

13 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: DevOps culture, flow metrics and first pipeline

New at this level

1. Why DevOps: silos, the wall of confusion between dev and ops, business outcomes and a short history
2. CALMS and the Three Ways: culture, automation, lean, measurement, sharing; flow, feedback and continual learning
3. Value stream mapping: lead time, process time, handoffs, queues and waste in software delivery
4. DORA metrics: deployment frequency, lead time for changes, change failure rate and time to restore
5. Agile foundations for DevOps teams: Scrum and Kanban, WIP limits and small batch sizes
6. Team Topologies: stream-aligned, platform, enabling and complicated-subsystem teams
7. DevOps lifecycle and toolchain map: plan, code, build, test, release, deploy, operate and monitor
8. Linux essentials for DevOps: shell navigation, files and permissions, processes, packages and SSH
9. Networking essentials: IP addressing, DNS, HTTP and HTTPS, ports and load balancers, curl and dig
10. Branching concepts: trunk-based development versus GitFlow and why short-lived branches win
11. CI/CD concepts: continuous integration, delivery versus deployment, pipelines as code and artifacts
12. Cloud and infrastructure as code concepts: IaaS, PaaS, SaaS, immutable infrastructure, declarative versus imperative
13. First pipeline: a GitHub Actions workflow that builds and tests a small app on every push

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Map a value stream, automate builds

Map your team's delivery value stream with DORA baselines, then create a GitHub Actions workflow that builds and tests a demo service on every push.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four DevOps levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR DEVOPS TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
