Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Dynatrace Foundation Training

Explain how Dynatrace works, choose SaaS or Managed, install ActiveGate and OneAgent and see your first hosts and services.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	12 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Dynatrace course path, you will be able to:

1

Deploy Dynatrace with confidence

Choose between SaaS and Managed, install ActiveGate and OneAgent on every major platform and keep licensing under control.

2

Find root cause fast

Use PurePath traces, Smartscape and Davis AI problem analysis to move from an alert to the failing service, query or host.

3

Run observability at scale

Integrate cloud, Kubernetes, ITSM and on-call tools and manage dashboards, SLOs and settings as code.

WHAT THE FOUNDATION LEVEL ADDS

APM concepts, architecture and OneAgent installation

Hands-on: Install OneAgent and explore Smartscape. Deploy an Environment ActiveGate and OneAgent on a Linux and a Windows host running a small web shop, then trace its processes and services in Smartscape.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Dynatrace and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Dynatrace on real work.
- Leads and managers who want first-hand familiarity with Dynatrace.

BEFORE YOU START

- No prior Dynatrace experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Dynatrace Foundation Training agenda

12 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: APM concepts, architecture and OneAgent installation

New at this level

1. APM introduction: what APM is and why teams need it, metrics, traces, logs and real user data in one view
2. What is Dynatrace: understanding the Dynatrace platform, how it compares with competitors such as Datadog, New Relic and AppDynamics
3. Deployment models: Dynatrace SaaS versus Managed on premises, data residency and operations trade-offs
4. Dynatrace architecture: cluster, environments, OneAgent, ActiveGate and the overall solution architecture
5. Dynatrace components in detail: OneAgent code modules, Environment and Cluster ActiveGates, Managed cluster nodes, web UI
6. Managed deployment scenarios: basic setup, pure Dynatrace Managed setup, integration with the existing IT landscape
7. Ports used by default: OneAgent, ActiveGate (9999) and cluster traffic over 443, proxies and firewall rules
8. Managed Server installation: sizing, running the installer and bringing up the first cluster node
9. Environment ActiveGate installation: when it is needed, install, connect and verify routing of OneAgent traffic
10. OneAgent installation: Linux, Windows, Solaris and AIX hosts, full-stack versus infrastructure-only monitoring mode
11. Exploring the web interface: hosts, processes, services, Smartscape topology and the problems feed
12. Licensing basics: managing the license, license types, Dynatrace Platform Subscription and host-unit models

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Install OneAgent and explore Smartscape

Deploy an Environment ActiveGate and OneAgent on a Linux and a Windows host running a small web shop, then trace its processes and services in Smartscape.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Dynatrace levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
