Course curriculum · November 2026

LEVEL 02 OF 04 · ESSENTIAL

Elastic Logstash Kibana Full Stack ELK Essential Training

Manage Elastic Agents with Fleet, parse data with ingest pipelines and Logstash and monitor hosts and uptime in Kibana Observability.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **2 days · Days 1-2**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · Included	2 days · This curriculum	3 days · Next step	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	24 topics · Foundation to Essential
Hands-on labs	2 labs
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Elastic Logstash Kibana Full Stack ELK course path, you will be able to:

1

Collect every signal

Gather logs, metrics, traces and uptime data with Beats, Elastic Agent, Fleet, Logstash and APM.

2

Observe and alert

Use Kibana Observability, dashboards, SLOs and anomaly detection to find and act on problems early.

3

Run the stack in production

Scale, secure, govern and upgrade a highly available Elastic Stack on servers or Kubernetes.

WHAT THE ESSENTIAL LEVEL ADDS

Elastic Agent, Fleet, ingest and Kibana Observability

Hands-on: Fleet-managed observability for a web tier. Enroll Elastic Agents through Fleet with the Nginx and MySQL integrations, add uptime monitors and build a team dashboard with an error-rate alert.

WHO SHOULD ATTEND

- Learners who know the basics of Elastic Logstash Kibana Full Stack ELK and want to use it confidently every day.
- Professionals taking over Elastic Logstash Kibana Full Stack ELK work on a live project.
- Teams agreeing on a common way of working with Elastic Logstash Kibana Full Stack ELK.

BEFORE YOU START

- The Foundation level, or equivalent hands-on experience.
- You can already: Install Elasticsearch, Kibana, Logstash and Beats, ship logs and metrics from a host and explore them on a first dashboard.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION TO ESSENTIAL

Elastic Logstash Kibana Full Stack ELK Essential Training agenda

24 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Full Elastic Stack concepts, installation and Beats

Included from Foundation

1. Elastic Stack overview: Elasticsearch, Logstash, Kibana, Beats, Elastic Agent and integrations and where each fits
2. Observability signals: logs, metrics, traces and uptime data and how the full stack collects each
3. Deployment options: self-managed packages, Docker Compose, Elastic Cloud and Serverless projects
4. Installing Elasticsearch: deb and rpm packages, security auto-configuration, elasticsearch.yml essentials
5. Installing Kibana: kibana.yml, enrollment token, first login and the Kibana navigation
6. Core data concepts: indices, documents, mappings, shards, replicas and data streams
7. Elastic Common Schema (ECS): standard field names and why consistent fields matter across sources
8. Filebeat: installation, modules for system and Nginx logs, setup command and default dashboards
9. Metricbeat: system and service metrics modules, collection periods and host dashboards
10. Logstash basics: inputs, filters and outputs with a first beats to Elasticsearch pipeline
11. Kibana Discover and KQL: data views, field filters, time picker and saved searches
12. First dashboard: Lens visualizations built from Filebeat and Metricbeat data

DAY 2 — Essential: Elastic Agent, Fleet, ingest and Kibana Observability

New at this level

13. Fleet and Elastic Agent: Fleet Server, agent policies, enrolling and upgrading agents centrally
14. Integrations: system, Nginx, MySQL and Kubernetes integrations with their bundled dashboards
15. Ingest pipelines: grok, dissect, date, geoip and rename processors with the simulate API
16. Logstash for complex parsing: conditionals, mutate, multiple pipelines and routing to different data streams
17. Data stream naming: type-dataset-namespace convention, composable index and component settings
18. Synthetics and uptime: HTTP, TCP and ICMP monitors and Playwright browser journeys
19. Packetbeat and Auditbeat: network flows, DNS and HTTP traffic, file integrity and audit events
20. Kibana Observability: Infrastructure inventory, Hosts view and Logs exploration in Discover
21. Querying data: Query DSL in Dev Tools and ES|QL in Discover for ad hoc analysis
22. Dashboards for teams: Lens, TSVB and Maps panels, controls, drilldowns and sharing
23. Kibana Spaces and saved objects: separating teams, exporting and importing dashboards
24. Alerting basics: rules and connectors for email, Slack and webhooks

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Ship host logs and metrics

Install the stack on a Linux VM, ship system and Nginx logs with Filebeat and host metrics with Metricbeat, then build a first Lens dashboard.

ESSENTIAL

Fleet-managed observability for a web tier

Enroll Elastic Agents through Fleet with the Nginx and MySQL integrations, add uptime monitors and build a team dashboard with an error-rate alert.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Elastic Logstash Kibana Full Stack ELK levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	2 days for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune
