DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Falco Foundation Training

Explain cloud native runtime security, install Falco on a Linux host and read your first real-time security alerts.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	12 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Falco course path, you will be able to:

1

Detect runtime threats

Detect suspicious behaviour in hosts, containers and Kubernetes in real time with Falco.

2

Engineer reliable detections

Write, test and tune Falco rules with low false positives and clear ownership.

3

Respond and scale securely

Route, automate and govern Falco alerts across multiple clusters and security tools.

WHAT THE FOUNDATION LEVEL ADDS

Runtime security concepts, drivers and installation

Hands-on: Catch your first runtime threat. Install Falco with the modern eBPF driver, run suspicious commands inside a container and trace each resulting alert back to its rule.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Falco and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Falco on real work.
- Leads and managers who want first-hand familiarity with Falco.

BEFORE YOU START

- No prior Falco experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Falco Foundation Training agenda

12 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Runtime security concepts, drivers and installation

New at this level

1. Runtime security basics: why scanning is not enough, detecting threats while containers and hosts are running
2. What Falco is: CNCF graduated runtime security project, system call monitoring and rule-based detection
3. Falco architecture: kernel event collection, libscap and libsinsp, rules engine and output channels
4. Event sources: system calls, plus plugins for Kubernetes audit logs, AWS CloudTrail and other sources
5. Drivers: modern eBPF probe, legacy eBPF probe and kernel module, and how to choose for your kernel
6. Installation on Linux: packages (deb, rpm), systemd services per driver and falcoctl driver setup
7. Running in a container: the falcosecurity/falco image, privileges and host mounts
8. Configuration file: falco.yaml, rules_files, outputs, priority threshold and json_output
9. Default rules: falco_rules.yaml, rule maturity levels and what ships enabled
10. Reading alerts: priority, rule name, output fields such as proc.name, user.name and container.id
11. Common detections: shell in a container, sensitive file read (/etc/shadow), unexpected outbound connection
12. First example: trigger a terminal shell in a container and capture the alert

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Catch your first runtime threat

Install Falco with the modern eBPF driver, run suspicious commands inside a container and trace each resulting alert back to its rule.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Falco levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR FALCO TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
