DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Graylog Foundation Training

Install and configure Graylog, send in your first logs and search and analyze them confidently.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation 1 day · This curriculum	**Essential** 2 days · Next step	**Intermediate** 3 days · Later	**Advanced** 5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Graylog course path, you will be able to:

1

Centralize log collection

Collect logs from servers, network devices and applications into Graylog with inputs and Sidecar.

2

Search, route and alert

Structure, route, enrich and visualize log data and alert on important events.

3

Run Graylog at scale

Design, secure, upgrade and tune multi-node Graylog clusters with clear retention and governance.

WHAT THE FOUNDATION LEVEL ADDS

Log management concepts, installation and first search

Hands-on: Install Graylog and search logs. Deploy Graylog with MongoDB and a Data Node using Docker Compose, send syslog and GELF messages and investigate them with searches.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Graylog and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Graylog on real work.
- Leads and managers who want first-hand familiarity with Graylog.

BEFORE YOU START

- No prior Graylog experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Graylog Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 **Foundation: Log management concepts, installation and first search** — New at this level

1. Introduction to Graylog: centralized log management and the Graylog Open, Enterprise and Security editions
2. Architectural considerations: Graylog server, MongoDB and OpenSearch or Graylog Data Node roles
3. Getting started: how messages flow from inputs through streams and pipelines into index sets
4. Choosing your installation method: packages on Ubuntu or RHEL, Docker Compose and cloud images
5. Installing Graylog: MongoDB, Data Node or OpenSearch and the graylog-server package
6. Configuring Graylog: server.conf, password_secret, root_password_sha2 and http_bind_address
7. Sending in log data: Syslog, GELF, Beats and raw inputs and which to choose
8. Creation of inputs: launching global and node inputs, ports and checking received messages
9. Searching: query syntax, field searches, time ranges and saved searches
10. Searching and analyzing your data: field statistics, top values and message details
11. First dashboard: building a dashboard from a search with message count and top values widgets

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION **Install Graylog and search logs**

Deploy Graylog with MongoDB and a Data Node using Docker Compose, send syslog and GELF messages and investigate them with searches.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Graylog levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
