Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

# Influxdb Foundation Training

Install InfluxDB, understand its time series data model and write and query your first measurements.

## INSIDE THIS CURRICULUM

| | |
|---|---|
| What you will achieve | Outcomes and level focus |
| Who should attend | Audience and prerequisites |
| Agenda | 11 topics · Foundation |
| Hands-on labs | 1 lab |
| Formats and fees | Live, 1:1, self-paced, corporate |
| Trainer and reviews | Rajesh Kumar |
| Enrolment | Batches, payment, contacts |

## WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

# What you will achieve

By the end of the Influxdb course path, you will be able to:

1

### Model time series data

Design measurements, tags and fields that keep InfluxDB fast and storage efficient.

2

### Ingest, query and visualize

Collect data with Telegraf and APIs, query it with SQL, InfluxQL or Flux and build Grafana dashboards.

3

### Operate InfluxDB at scale

Secure, monitor, back up, cluster and tune InfluxDB deployments with automated downsampling.

WHAT THE FOUNDATION LEVEL ADDS

### Time series concepts, installation and data model

**Hands-on:** Install InfluxDB and store metrics. Run InfluxDB in Docker, create a database and token, write server metrics in line protocol and query them back from the CLI.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Influxdb and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Influxdb on real work.
- Leads and managers who want first-hand familiarity with Influxdb.

BEFORE YOU START

- No prior Influxdb experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

# Influxdb Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

## DAY 1 — Foundation: Time series concepts, installation and data model

New at this level

1. Introduction to InfluxDB: overview of time series databases and their significance for metrics, IoT and events
2. Introduction to InfluxDB and its features: InfluxDB 1.x, 2.x and InfluxDB 3 Core and Enterprise compared
3. Understanding the use cases of InfluxDB: infrastructure monitoring, IoT sensors and real-time analytics
4. InfluxDB installation and setup: installing on various platforms (Linux, Windows, Docker) and InfluxDB Cloud
5. Configuring InfluxDB: configuration options, data directories, object storage settings and ports
6. Exploring the InfluxDB user interface and command-line tools: influxdb3 and influx CLIs and the web UI
7. InfluxDB data modeling: understanding the data model of databases and buckets, measurements and series
8. Measurements, tags, fields and timestamps: defining each and how they are stored
9. Line protocol: measurement, tag set, field set, timestamp and write precision
10. Access basics: API tokens, organizations and databases or buckets
11. First writes and queries: writing line protocol from the CLI and querying it back with SQL

PRACTICE

# Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

**Install InfluxDB and store metrics**

Run InfluxDB in Docker, create a database and token, write server metrics in line protocol and query them back from the CLI.

HOW YOU CAN LEARN

## Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

| FORMAT | DURATION | WHAT YOU GET | FEE |
|---|---|---|---|
| **Live & interactive (online)** | Max 8-10 hours | Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month. | **INR 34,999** |
| **1:1 live training (online)** | Max 8-10 hours, one-to-one | The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace. | **INR 99,999** |
| **Self-paced video** | 1-year LMS access | All four Influxdb levels, plus 20+ more courses and 50+ tools, at your own pace. | **INR 833/month** billed yearly at INR 9,996 |
| **Corporate (day-wise)** | 1 day for this level | A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative). | **Quote on request** |

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

## Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

REVIEWS

## What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR INFLUXDB TRAINING

## Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
