DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Javascript Foundation Training

Set up a JavaScript workspace, write your first scripts and use variables, operators, data types, conditions and loops with confidence.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	12 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Javascript course path, you will be able to:

1

Master core JavaScript

Write clean JavaScript with functions, objects, classes, arrays and modern syntax.

2

Build interactive web pages

Manipulate the DOM, handle events, exchange JSON and debug confidently in the browser.

3

Ship robust browser apps

Use Web APIs, async code, testing and security practices to deliver production-ready front ends.

WHAT THE FOUNDATION LEVEL ADDS

Setup, syntax, data types and control flow

Hands-on: Build an interactive grade calculator. Write a script that reads marks from a form, validates them with conditions, loops through the values and prints grades and totals on the page.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Javascript and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Javascript on real work.
- Leads and managers who want first-hand familiarity with Javascript.

BEFORE YOU START

- No prior Javascript experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Javascript Foundation Training agenda

12 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Setup, syntax, data types and control flow

New at this level

1. Getting started: why study JavaScript, applications and features of JavaScript in browsers, servers and tooling
2. How JavaScript runs: the ECMAScript standard, engines such as V8, browser runtime and Node.js
3. Code editor with example: VS Code, the browser DevTools console and Node.js LTS for running a first script
4. JavaScript output: console.log, alert, document.write and writing into HTML elements
5. JavaScript placement: inline code, script tags in head and body, external .js files, defer and async
6. JavaScript fundamentals: variable declaration syntax with var, let and const, expressions, keywords and identifiers
7. Operators: arithmetic, assignment, string, comparison, logical, type and bitwise operators, and the ternary operator
8. Data types: string, number, boolean, array, undefined and null, the typeof operator, loose and strict equality
9. Decision control: if, else if and else condition statements, and the switch statement
10. Loop structures: while, do-while and for loops, plus for...of and for...in
11. Control flow: break and continue, and labelled statements as the JavaScript alternative to goto
12. First working example: an interactive page that reads input, loops over values and shows the result

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Build an interactive grade calculator

Write a script that reads marks from a form, validates them with conditions, loops through the values and prints grades and totals on the page.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Javascript levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
