DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Jmeter Foundation Training

Understand performance testing metrics, install Apache JMeter and record, run and read your first load test against a web application.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation 1 day · This curriculum	**Essential** 2 days · Next step	**Intermediate** 3 days · Later	**Advanced** 5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Jmeter course path, you will be able to:

1

Build realistic JMeter scripts

Create correlated, data-driven test plans that model real user and API behaviour.

2

Run load at scale

Execute distributed, containerised and CI-driven JMeter tests with live monitoring.

3

Turn results into decisions

Analyse percentiles, find bottlenecks and report capacity and regression risks clearly.

WHAT THE FOUNDATION LEVEL ADDS

Performance testing basics and first JMeter test

Hands-on: Record and run a first test. Record a browsing journey with the HTTP(S) Test Script Recorder, clean it into a test plan with a thread group and run a small load test with listeners.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Jmeter and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Jmeter on real work.
- Leads and managers who want first-hand familiarity with Jmeter.

BEFORE YOU START

- No prior Jmeter experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Jmeter Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Performance testing basics and first JMeter test

New at this level

1. Performance testing concepts: load, stress, spike, soak and scalability tests and when to use each
2. Performance metrics: response time, throughput, percentiles such as p90, p95 and p99, error rate and concurrency
3. Apache JMeter overview: open-source Java tool, supported protocols HTTP, JDBC, JMS, FTP, LDAP and TCP, GUI and CLI modes
4. Installing JMeter: JDK prerequisite, binary download, jmeter.properties, user.properties and the Plugins Manager
5. Test plan structure: thread groups, request elements, listeners, config elements, assertions, timers, scope and order
6. Thread group settings: number of threads, ramp-up period, loop count, duration and startup delay
7. HTTP Request element: method, path, parameters, body data, HTTP Request Defaults and HTTP Header Manager
8. Browser behaviour: HTTP Cookie Manager and HTTP Cache Manager to mimic real users
9. Recording a script: HTTP(S) Test Script Recorder, browser proxy settings and the JMeter CA certificate
10. Listeners for debugging: View Results Tree, Summary Report and Aggregate Report
11. First load test: run a small test against a demo web app and interpret response times and errors

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Record and run a first test

Record a browsing journey with the HTTP(S) Test Script Recorder, clean it into a test plan with a thread group and run a small load test with listeners.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Jmeter levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR JMETER TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
