DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Jquery Foundation Training

Add jQuery to a page, select elements with confidence and read or change their attributes and classes.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Jquery course path, you will be able to:

1

Manipulate pages with jQuery

Select, traverse and update any part of the DOM and respond to user events with clean, delegated handlers.

2

Build interactive Ajax interfaces

Load and submit data asynchronously, animate changes and package behaviour as reusable plugins.

3

Maintain production jQuery code

Debug, optimise, test, secure and upgrade existing jQuery code bases with confidence.

WHAT THE FOUNDATION LEVEL ADDS

JQuery setup, selectors and attributes

Hands-on: Style a product list with selectors. Load jQuery into a static product page, select items by id, class and attribute, and change attributes and classes once the document is ready.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Jquery and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Jquery on real work.
- Leads and managers who want first-hand familiarity with Jquery.

BEFORE YOU START

- No prior Jquery experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Jquery Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: JQuery setup, selectors and attributes

New at this level

1. jQuery introduction: what jQuery is, why jQuery is still used and what you should already know in HTML, CSS and JavaScript
2. Adding jQuery: local copy or CDN, current 3.x and 4.x releases, the slim build and Subresource Integrity
3. Document ready: .ready(), jQuery.ready, the $(function) shorthand and jQuery.holdReady()
4. jQuery basics in JavaScript: strings, numbers, booleans, arrays and functions
5. The jQuery object: $() wrapper, collections, .length, .each() and .get() for native elements
6. Selectors: element selector, id selector and class selector, grouping and descendant selectors
7. More examples of jQuery selectors: attribute selectors, :checked, :visible, :input and :nth-child()
8. Attributes: get attribute value and set attribute value with .attr(), and .prop() for checked and disabled
9. Applying styles: .addClass(), .removeClass(), .toggleClass() and .hasClass()
10. Data attributes: reading data-* values with .data() and when to prefer .attr()
11. Browser developer tools: running jQuery in the console and inspecting selected elements

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Style a product list with selectors

Load jQuery into a static product page, select items by id, class and attribute, and change attributes and classes once the document is ready.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Jquery levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
