DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Json Foundation Training

Read and write valid JSON documents, choose the right data types and catch syntax errors quickly.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	**Essential**	**Intermediate**	**Advanced**
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Json course path, you will be able to:

1

Write correct JSON

Create, format and debug JSON documents that any parser accepts.

2

Automate JSON workflows

Query and transform JSON from APIs and cloud tools with jq, JSONPath and code.

3

Govern JSON contracts

Define, validate, secure and evolve JSON schemas used by APIs and data pipelines.

WHAT THE FOUNDATION LEVEL ADDS

JSON syntax, data types and validation

Hands-on: Model and validate a course catalogue. Write a nested JSON document describing courses, levels and trainers, fix deliberate syntax errors and pretty-print the result with jq.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Json and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Json on real work.
- Leads and managers who want first-hand familiarity with Json.

BEFORE YOU START

- No prior Json experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Json Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: JSON syntax, data types and validation

New at this level

1. What JSON is: a text data-interchange format defined by RFC 8259 and ECMA-404, and where it is used
2. JSON compared: JSON vs XML vs YAML for readability, typing, comments and tooling
3. Syntax rules: objects, arrays, name/value pairs, double-quoted keys and no trailing commas
4. Data types: string, number, boolean, null, object and array, and what JSON cannot represent (dates, undefined)
5. Strings and escaping: quotes, backslashes, newlines, \u escapes and UTF-8 encoding
6. Numbers: integers, decimals, exponents and precision limits beyond 2^53 in JavaScript
7. Nesting: modelling real records with nested objects and arrays of objects
8. Formatting: pretty-printing and minifying with python3 -m json.tool and jq .
9. Common syntax errors: single quotes, comments, trailing commas and unescaped characters, linting in the editor
10. JSON files and media type: .json files, application/json and character encoding rules
11. JSON in the browser: inspecting API responses in the developer tools Network tab

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Model and validate a course catalogue

Write a nested JSON document describing courses, levels and trainers, fix deliberate syntax errors and pretty-print the result with jq.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Json levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR JSON TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
