DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Language Processing Foundation Training

Set up a Python NLP environment and turn raw text into clean tokens, lemmas and features ready for analysis.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Language Processing course path, you will be able to:

1

Process and represent text

Clean, tokenize and vectorise real text data with Python NLP libraries.

2

Build and evaluate models

Train, fine-tune and measure classic and transformer NLP models for classification, extraction and search.

3

Deliver production NLP

Deploy, evaluate and monitor LLM and retrieval-augmented applications responsibly.

WHAT THE FOUNDATION LEVEL ADDS

NLP concepts, Python setup and text preprocessing

Hands-on: Build a text preprocessing pipeline. Write a Python pipeline that loads documents, cleans them with regex, tokenizes, removes stop words and lemmatizes, then reports top terms and bigrams.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Language Processing and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Language Processing on real work.
- Leads and managers who want first-hand familiarity with Language Processing.

BEFORE YOU START

- No prior Language Processing experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Language Processing Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: NLP concepts, Python setup and text preprocessing

New at this level

1. What natural language processing is: tasks such as classification, extraction, search, translation and generation
2. NLP pipeline overview: data collection, preprocessing, representation, modelling, evaluation and deployment
3. Environment setup: Python, virtual environments, Jupyter, NLTK, spaCy, scikit-learn and Hugging Face libraries
4. Working with text in Python: Unicode, encodings, string methods and reading files, CSV and JSON
5. Regular expressions for text: patterns, groups, re.findall and re.sub for cleaning and extraction
6. Tokenization: word, sentence and subword tokens with NLTK, spaCy and Hugging Face tokenizers
7. Normalization: lowercasing, punctuation, stop words, stemming (Porter, Snowball) and lemmatization
8. Linguistic basics: morphology, syntax, part-of-speech tags and dependency structure
9. Corpora and datasets: NLTK corpora, Hugging Face Datasets and building your own labelled corpus
10. Counting and exploring text: frequency distributions, n-grams, collocations and word clouds
11. First working example: a cleaned word-frequency report from a set of documents

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Build a text preprocessing pipeline

Write a Python pipeline that loads documents, cleans them with regex, tokenizes, removes stop words and lemmatizes, then reports top terms and bigrams.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Language Processing levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR LANGUAGE PROCESSING TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.

Pay by UPI, credit and debit cards, net banking or PayPal. Before you pay, read our refund policy. All levels of this course: www.devopsschool.com/courses/languageprocessing/
