DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Makefile Foundation Training

Install GNU make, write your first Makefile and use it to rebuild only what changed in a small C or scripting project.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	10 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Makefile course path, you will be able to:

1

Write correct Makefiles

Model dependencies with rules, variables and pattern rules so make rebuilds exactly what changed.

2

Automate real builds

Use functions, implicit rules, libraries and parallel jobs to automate multi-directory builds.

3

Scale and standardise builds

Apply GNU Makefile conventions, portability rules and CI practices to large build systems.

WHAT THE FOUNDATION LEVEL ADDS

Make concepts, first Makefile and running make

Hands-on: Build a small C project with make. Write a Makefile that compiles a three-file C program into objects and a binary, with all, clean and dry-run checks.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Makefile and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Makefile on real work.
- Leads and managers who want first-hand familiarity with Makefile.

BEFORE YOU START

- No prior Makefile experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Makefile Foundation Training agenda

10 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Make concepts, first Makefile and running make

New at this level

1. Overview of make: what GNU make solves, dependency graphs and timestamp-based rebuilds
2. Installing GNU make: Linux packages, macOS Xcode tools or Homebrew gmake, Windows via WSL or MSYS2, make --version
3. An introduction to Makefiles: targets, prerequisites and recipes in a simple makefile
4. How make processes a makefile: default goal, reading phases and deciding what is out of date
5. Writing Makefiles: naming (GNUmakefile, makefile, Makefile), comments, line continuation and include
6. Recipe syntax basics: the leading tab, .RECIPEPREFIX and why each line runs in its own shell
7. Phony targets: .PHONY for clean, all and test so files with the same name do not break the build
8. First variables: = versus := and using CC, CFLAGS and object lists to avoid repetition
9. How to run make basics: choosing goals, -f to pick a file and -n for a dry run
10. First working build: compiling a multi-file C program with gcc and a clean target

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Build a small C project with make

Write a Makefile that compiles a three-file C program into objects and a binary, with all, clean and dry-run checks.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Makefile levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR MAKEFILE TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
