DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Nant Foundation Training

Install NAnt, understand its build file structure and components, and compile a .NET project with your first build file.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	10 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Nant course path, you will be able to:

1

Read and maintain NAnt builds

Understand NAnt projects, targets, tasks, properties and filesets well enough to maintain existing builds.

2

Automate legacy .NET builds

Extend NAnt builds with expressions, functions, custom tasks and CI integration.

3

Plan a safe migration

Move NAnt builds to modern .NET tooling without losing build behaviour or artifacts.

WHAT THE FOUNDATION LEVEL ADDS

NAnt purpose, installation and first build file

Hands-on: First NAnt build. Install NAnt and write a build file that cleans, compiles and runs a small C# console application.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Nant and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Nant on real work.
- Leads and managers who want first-hand familiarity with Nant.

BEFORE YOU START

- No prior Nant experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Nant Foundation Training agenda

10 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: NAnt purpose, installation and first build file

New at this level

1. Introduction: what NAnt is, its history as a .NET port of Apache Ant and where it is still found today
2. Why NAnt: scripted, repeatable .NET builds and what's the scenario for maintaining existing NAnt builds
3. System requirements: .NET Framework or Mono runtime and supported Windows and Linux environments
4. Installation: downloading the NAnt binaries, setting PATH and verifying with nant -help
5. Getting started: a first .build file with a project, a target and an echo task
6. Ant users: similarities and differences between NAnt and Apache Ant build files
7. Running NAnt: -buildfile, target selection, -D property overrides and -projecthelp
8. Build files: XML structure, project element, default target and basedir
9. NAnt components: projects, targets, tasks, properties, filesets and loggers at a glance
10. Demo time: compiling a C# console application with the csc task and running it

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

First NAnt build

Install NAnt and write a build file that cleans, compiles and runs a small C# console application.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Nant levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
