DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Network Security Foundation Training

Understand common network attacks and core defences, analyse traffic with Wireshark and set up a safe security testing lab.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	10 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Network Security course path, you will be able to:

1

Find network weaknesses

Discover, scan, enumerate and assess networks for vulnerabilities using industry tools.

2

Understand real attacks

Reproduce common network attacks safely in a lab and know how to detect each one.

3

Design stronger defences

Apply segmentation, zero trust, monitoring and incident response to protect enterprise networks.

WHAT THE FOUNDATION LEVEL ADDS

Network threats, secure design basics and lab setup

Hands-on: Build a network security lab. Build an isolated lab with Kali Linux and vulnerable hosts, capture Telnet and SSH sessions in Wireshark and compare what leaks.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Network Security and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Network Security on real work.
- Leads and managers who want first-hand familiarity with Network Security.

BEFORE YOU START

- No prior Network Security experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Network Security Foundation Training agenda

10 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Network threats, secure design basics and lab setup

New at this level

1. Network security fundamentals: confidentiality, integrity, availability, threat actors and attack surface
2. TCP/IP and OSI from a security view: ports, protocols, the TCP handshake and where attacks happen
3. Common network attacks: sniffing, spoofing, ARP poisoning, man-in-the-middle and DoS or DDoS
4. Secure network design basics: segmentation, VLANs, DMZs and trust zones
5. Firewalls: stateless ACLs, stateful inspection and next-generation firewalls
6. Encryption in transit: TLS, SSH and why plaintext protocols are dangerous
7. Telnet and rlogin insecurities: credential exposure and replacing them with SSH
8. Packet analysis: capturing and filtering traffic with Wireshark and tcpdump
9. Lab setup: Kali Linux, virtual networks and intentionally vulnerable targets
10. Rules of engagement: legal authorisation, scope and safe testing practices

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Build a network security lab

Build an isolated lab with Kali Linux and vulnerable hosts, capture Telnet and SSH sessions in Wireshark and compare what leaks.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Network Security levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR NETWORK SECURITY TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
