DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Noops Foundation Training

Explain what NoOps removes and what it keeps, set up a cloud account safely and deploy your first fully managed serverless API.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Noops course path, you will be able to:

1

Remove manual operations work

Identify operational toil and replace it with managed services, pipelines and automated remediation.

2

Run serverless in production

Deploy, observe and troubleshoot event-driven serverless applications on the major clouds.

3

Govern automation at scale

Apply guardrails, cost controls and SLO-based operations across many teams and accounts.

WHAT THE FOUNDATION LEVEL ADDS

NoOps concepts, managed platforms and first deploy

Hands-on: Deploy a first serverless API. Create an AWS SAM project, deploy a Lambda function behind API Gateway and call it with curl and a browser.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Noops and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Noops on real work.
- Leads and managers who want first-hand familiarity with Noops.

BEFORE YOU START

- No prior Noops experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Noops Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: NoOps concepts, managed platforms and first deploy

New at this level

1. NoOps defined: origins, NoOps vs DevOps vs platform engineering, which operations work disappears and which remains
2. Operational toil: the SRE definition of toil, measuring manual work and choosing what to automate first
3. Building blocks: serverless functions, managed databases, PaaS, managed Kubernetes and SaaS observability
4. Shared responsibility: what AWS, Azure and Google Cloud operate for you versus what your team still owns
5. Serverless compute basics: AWS Lambda, Azure Functions and Google Cloud Run, triggers, cold starts and limits
6. Managed data services: DynamoDB, Aurora Serverless v2, Azure Cosmos DB and Firestore, and when to use each
7. Infrastructure as code for NoOps: declarative stacks with AWS SAM, OpenTofu or Terraform, and Pulumi
8. Pipelines as the only path to production: Git-based change, automated deploys and no manual console edits
9. Environment setup: cloud account, aws, az or gcloud CLI, IAM roles, budgets and billing alerts
10. First deployment: sam init, sam build and sam deploy for a function behind an HTTP endpoint
11. Limits of NoOps: vendor lock-in, cost surprises, compliance duties and debugging across managed services

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Deploy a first serverless API

Create an AWS SAM project, deploy a Lambda function behind API Gateway and call it with curl and a browser.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Noops levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR NOOPS TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
