DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Octopus Deploy Foundation Training

Install Octopus Server or use Octopus Cloud, connect Tentacles and run your first deployment and runbook across environments.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	12 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Octopus Deploy course path, you will be able to:

1

Automate release management

Package, release and promote applications through environments with Octopus Deploy.

2

Operate with runbooks

Automate routine and emergency operations tasks as versioned, auditable runbooks.

3

Scale deployments safely

Run multi-tenant, highly available Octopus setups with governance and advanced release patterns.

WHAT THE FOUNDATION LEVEL ADDS

Octopus architecture, installation and first deployment

Hands-on: Deploy your first release with Octopus. Install Octopus Server and a Tentacle, create Dev and Test environments, and deploy a packaged web app through both.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Octopus Deploy and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Octopus Deploy on real work.
- Leads and managers who want first-hand familiarity with Octopus Deploy.

BEFORE YOU START

- No prior Octopus Deploy experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Octopus Deploy Foundation Training agenda

12 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Octopus architecture, installation and first deployment

New at this level

1. Getting started: introduction to Octopus Deploy and how it complements CI servers
2. Terminology and glossary: spaces, environments, projects, releases, deployments, runbooks, targets and workers
3. Octopus Deploy architecture: Octopus Server, SQL Server database, Tentacle, Calamari and built-in package feed
4. How Octopus Deploy works: packages, release snapshots, lifecycle promotion and execution on targets
5. Octopus Cloud overview: hosted instances, data handling, static IP addresses and permissions
6. Installation requirements: Windows Server or Linux container host, SQL Server database and service permissions
7. Installing Octopus Server and Tentacles: listening versus polling Tentacles, first login and licence
8. Octopus as a container: running Octopus Server with Docker Compose and SQL Server
9. Environments and deployment targets: creating environments and adding machines with target tags
10. First Octopus deployment: package an app, create a project, define the process, create a release and deploy
11. First Octopus runbook run: create a runbook, publish it and run it against an environment
12. Best practices of Octopus Deploy: environment naming, small focused projects and variables over hard-coding

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Deploy your first release with Octopus

Install Octopus Server and a Tentacle, create Dev and Test environments, and deploy a packaged web app through both.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Octopus Deploy levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
