DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Azure Openai Foundation Training

Explain generative AI and Azure OpenAI models, deploy a model in the playground, and write safe, effective prompts within responsible AI rules.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	14 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Azure Openai course path, you will be able to:

1

Use Azure OpenAI responsibly

Choose models, write effective prompts and apply content filtering and responsible AI policies.

2

Build generative AI apps

Develop chat, RAG, embedding, image, speech and agent features with Azure OpenAI APIs.

3

Run AI securely at scale

Secure, monitor, govern and scale Azure OpenAI with private networking and an AI gateway.

WHAT THE FOUNDATION LEVEL ADDS

Generative AI concepts, models, safety and prompting

Hands-on: Deploy a model and shape it. Create an Azure OpenAI resource, deploy a chat model, and iterate on a system message and few-shot prompt in the playground while observing content filter results.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Azure Openai and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Azure Openai on real work.
- Leads and managers who want first-hand familiarity with Azure Openai.

BEFORE YOU START

- No prior Azure Openai experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Azure Openai Foundation Training agenda

14 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Generative AI concepts, models, safety and prompting

New at this level

1. What is generative AI: large language models, tokens, context windows and foundation models
2. What is Azure OpenAI: describing the service, its relation to OpenAI and how to use it via portal, SDKs and REST
3. Models: GPT-4o, GPT-4.1 and GPT-5 families, o-series reasoning, embeddings, image models and legacy GPT-3, GPT-35-Turbo, DALL-E
4. Capabilities: OpenAI natural language, code generation and image-generation capabilities with examples
5. Quotas and limits: tokens and requests per minute, regional quotas and model availability by region
6. Pricing: input and output tokens, standard versus provisioned throughput and batch processing
7. Quick start: create a resource, deploy a chat model and test it in the Azure AI Foundry playground
8. Access and responsible AI policies: limited access, code of conduct, transparency note, data, privacy and security
9. Abuse monitoring and content filtering: harm categories, severity levels and Prompt Shields
10. Embeddings concept: vectors, similarity and search, clustering and recommendation use cases
11. Prompt engineering: intro and techniques, zero-shot, few-shot, step-by-step reasoning, delimiters and output formats
12. System message design: role, scope, tone, safety instructions and grounding rules
13. Red teaming large language models: planning, harm categories and tools such as PyRIT
14. Knowledge check and summary: reviewing service concepts, safety controls and prompting skills

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Deploy a model and shape it

Create an Azure OpenAI resource, deploy a chat model, and iterate on a system message and few-shot prompt in the playground while observing content filter results.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Azure Openai levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune
