DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Azure OpenAI Fundamental Training and Courses

Understand Azure OpenAI models, quotas, prompts, security and responsible AI, and deploy and call your first models in Azure.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	14 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Azure OpenAI course path, you will be able to:

1

Use Azure OpenAI confidently

Deploy and call Azure OpenAI models with sound prompts, quotas, filters and security settings.

2

Build grounded AI apps

Create RAG applications and agents that answer from your data with citations and tools.

3

Operate AI responsibly

Run generative AI workloads with evaluation, safety, governance and cost control at scale.

WHAT THE FOUNDATION LEVEL ADDS

Azure OpenAI service, models, prompts and responsible AI

Hands-on: Deploy and call your first models. Create an Azure OpenAI resource, deploy a chat model and an embeddings model, and call them from Python with content filters applied.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Azure OpenAI and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Azure OpenAI on real work.
- Leads and managers who want first-hand familiarity with Azure OpenAI.

BEFORE YOU START

- No prior Azure OpenAI experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Azure OpenAI Fundamental Training and Courses agenda

14 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Azure OpenAI service, models, prompts and responsible AI

New at this level

1. What is Azure OpenAI: what generative AI is, a description of the service and how to use Azure OpenAI
2. Models, quotas and limits, and pricing: model families, deployment types, TPM and RPM quotas, token-based billing
3. OpenAI capabilities: natural language, code generation and image generation, with access and responsible AI policies
4. Quickstarts: chat completions on current GPT models (successors to GPT-3, GPT-3.5 Turbo and GPT-4) and DALL-E images
5. Concepts: abuse monitoring, content filtering and red teaming large language models (LLMs)
6. Embeddings: vector representations, text-embedding-3 models and similarity search use cases
7. Prompt engineering: introduction, techniques such as few-shot and grounding, and system message design
8. Resource creation and model deployment: Azure portal, Foundry portal and Azure CLI; completions vs chat APIs
9. OpenAI vs Azure OpenAI in Python: the openai SDK, AzureOpenAI client, endpoints, API versions and keys
10. Content filters and code: configuring content filter levels and working with code generation (formerly Codex)
11. Fine-tuning: preparing a JSONL dataset, training, deploying a tuned model and working with large datasets
12. Security setup: managed identity, quota management, virtual networks, encryption at rest; data, privacy and security
13. Operations: business continuity and disaster recovery (BCDR), monitoring Azure OpenAI and managing costs
14. Tutorials and responsible AI: embeddings and speech-to-speech chat; transparency note, limited access, code of conduct

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Deploy and call your first models

Create an Azure OpenAI resource, deploy a chat model and an embeddings model, and call them from Python with content filters applied.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Azure OpenAI levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune
