DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Openpolicyagent Foundation Training

Install Open Policy Agent, learn the opa CLI and Rego syntax, and model a role-based access policy with data.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Openpolicyagent course path, you will be able to:

1

Master the Rego language

Write, test and debug Rego policies for real authorization and compliance rules.

2

Integrate OPA everywhere

Connect OPA to applications, gateways, service meshes, Kubernetes and pipelines.

3

Operate policy as platform

Run OPA with signed bundles, monitoring, high availability and governed change.

WHAT THE FOUNDATION LEVEL ADDS

OPA concepts, CLI and Rego essentials

Hands-on: Model RBAC in Rego. Load users, roles and permissions as data and write a Rego policy that answers who can perform which action on which resource.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Openpolicyagent and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Openpolicyagent on real work.
- Leads and managers who want first-hand familiarity with Openpolicyagent.

BEFORE YOU START

- No prior Openpolicyagent experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Openpolicyagent Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: OPA concepts, CLI and Rego essentials

New at this level

1. Authorization challenges: hard-coded rules, inconsistent checks and audit gaps that OPA addresses
2. OPA decision flow: services send JSON input, OPA evaluates policy plus data and returns a decision
3. Deployment models: sidecar, host daemon, Go library and Wasm, with latency trade-offs
4. Installation: opa binary, Homebrew, the openpolicyagent/opa container image and opa version
5. The opa CLI: run, eval, test, fmt, check, build, inspect and bench subcommands
6. Rego syntax in OPA 1.x: package, import, default, if, contains and else
7. Rule types: complete rules, partial set and object rules and functions
8. Working with JSON: arrays, objects, sets, references and walking nested input
9. Iteration and quantifiers: some ... in, every and comprehensions over collections
10. Interactive learning: the opa run REPL, Rego Playground and editor tooling
11. First decisions: role-based access control with users, roles and permissions held in data.json

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Model RBAC in Rego

Load users, roles and permissions as data and write a Rego policy that answers who can perform which action on which resource.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Openpolicyagent levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
