DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Openshift Foundation Training

Explain how OpenShift builds on Kubernetes, choose an install method, log in with oc and the web console and deploy a first app.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	14 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Openshift course path, you will be able to:

1

Install and access OpenShift

Plan, install or provision OpenShift clusters and work confidently with oc and the web console.

2

Deliver applications reliably

Build, deploy, scale and store applications with S2I, Tekton, GitOps and persistent storage.

3

Operate secure production clusters

Manage nodes, monitoring, logging, security and upgrades for multi-tenant OpenShift platforms.

WHAT THE FOUNDATION LEVEL ADDS

Containers, architecture, installation and cluster access

Hands-on: Deploy your first OpenShift application. Log in to a lab cluster with oc and the console, create a project with role bindings, and deploy a container image with persistent storage exposed through a route.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Openshift and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Openshift on real work.
- Leads and managers who want first-hand familiarity with Openshift.

BEFORE YOU START

- No prior Openshift experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Openshift Foundation Training agenda

14 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Containers, architecture, installation and cluster access

New at this level

1. Getting started: course overview, OpenShift Container Platform releases and version check, demo environment walkthrough
2. Containers: images, registries, the CRI-O runtime and running a first container with podman
3. Kubernetes basics: pods, deployments, services, control plane and worker roles, hands-on demo
4. Why OpenShift: differences from upstream Kubernetes, routes, builds, integrated registry, Operators and secure defaults
5. OpenShift architecture: control plane, workers and infra nodes, Red Hat CoreOS, Operators, CRDs and the Cluster Version Operator
6. Deployment planning: deployment considerations and steps, system, load balancer, DNS and firewall requirements
7. Installing on bare metal or VMs: the Assisted Installer, single node OpenShift and OpenShift Local for labs
8. Installer-provisioned versus user-provisioned infrastructure: IPI and UPI flows, install-config.yaml, demo IPI install
9. Managed OpenShift: Azure Red Hat OpenShift, Red Hat OpenShift Service on AWS and OpenShift Dedicated, deploying ARO
10. Accessing clusters: retrieving kubeadmin credentials and kubeconfig, oc login, tokens and the web console
11. Web console: Developer versus Administrator perspectives, topology view, project and workload pages
12. oc CLI basics: new-project, create, get, describe, delete, api-resources and explain for the OpenShift API
13. Projects, namespaces, users and roles: RBAC basics with roles, role bindings and oc adm policy
14. First application: deploy an image with oc new-app and from the console, add storage, expose and test it

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Deploy your first OpenShift application

Log in to a lab cluster with oc and the console, create a project with role bindings, and deploy a container image with persistent storage exposed through a route.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Openshift levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR OPENSHIFT TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
