INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the OpenVAS course path, you will be able to:

1

Scan infrastructure accurately

Run authenticated OpenVAS scans and interpret findings with severity and detection quality.

2

Automate vulnerability workflows

Schedule, script and integrate scans with pipelines, ticketing and reporting.

3

Lead vulnerability management

Prioritise risk and run a measurable remediation programme across the organisation.

WHAT THE FOUNDATION LEVEL ADDS

Vulnerability scanning concepts and Greenbone setup

Hands-on: Run your first vulnerability scan. Deploy Greenbone Community Containers, sync the feeds, scan a deliberately vulnerable lab host and export a PDF report.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to OpenVAS and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use OpenVAS on real work.
- Leads and managers who want first-hand familiarity with OpenVAS.

BEFORE YOU START

- No prior OpenVAS experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

OpenVAS Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Vulnerability scanning concepts and Greenbone setup

New at this level

1. Vulnerability management basics: vulnerabilities, CVEs, CVSS scores and scanning versus penetration testing
2. OpenVAS and Greenbone: origins as a Nessus fork, the Greenbone Community Edition and commercial editions
3. Architecture: openvas-scanner, ospd-openvas, Greenbone Vulnerability Manager (gvmd), GSA web UI and Notus
4. Supporting services: PostgreSQL for gvmd data and Redis for scanner knowledge bases
5. Feeds: the Greenbone Community Feed with NVTs, SCAP, CERT advisories and feed sync status
6. Installation: Greenbone Community Containers with Docker Compose or Kali packages with gvm-setup
7. First login: the Greenbone Security Assistant dashboard and creating users with gvmd --create-user
8. Legal and ethical scanning: written authorisation, scope agreements and scanning windows
9. Targets and port lists: hosts, ranges, exclusions and port list selection
10. First scan: the Task Wizard, the Full and fast scan config and monitoring a running task
11. Reading results: severity, Quality of Detection (QoD), solution types, CVE references and report export

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Run your first vulnerability scan

Deploy Greenbone Community Containers, sync the feeds, scan a deliberately vulnerable lab host and export a PDF report.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four OpenVAS levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR OPENVAS TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
