DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Packer Foundation Training

Understand machine images as code, install Packer and its plugins, and build your first image with the Packer CLI.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation 1 day · This curriculum	**Essential** 2 days · Next step	**Intermediate** 3 days · Later	**Advanced** 5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Packer course path, you will be able to:

1

Build machine images as code

Write HCL2 Packer configurations that produce repeatable images for clouds and containers.

2

Bake hardened, ready images

Provision secure application images with shell and Ansible and debug builds quickly.

3

Automate image delivery

Run tested, governed image pipelines that feed Terraform and auto scaling deployments.

WHAT THE FOUNDATION LEVEL ADDS

Packer concepts, installation, workflow and CLI

Hands-on: Build your first image with Packer. Install Packer, initialise the Docker plugin and build a container image with a shell provisioner using HCL2.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Packer and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Packer on real work.
- Leads and managers who want first-hand familiarity with Packer.

BEFORE YOU START

- No prior Packer experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Packer Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 **Foundation: Packer concepts, installation, workflow and CLI** — New at this level

1. Getting to know Packer: what Packer is, machine images as code and immutable infrastructure
2. Installing Packer: package managers or binary install, packer version and plugins via packer init
3. The Packer workflow and components: sources, builders, provisioners, post-processors and plugins
4. HCL2 configuration basics: the packer block, required_plugins, source and build blocks in .pkr.hcl files
5. The Packer CLI: init, fmt, validate, inspect, build and console
6. Builders overview: amazon-ebs, azure-arm, googlecompute, vsphere-iso, docker and qemu
7. Where Packer fits: Packer versus Dockerfiles and Terraform in an image and infrastructure toolchain
8. AWS access for builds: IAM permissions, named profiles and environment variables
9. First image: build a Docker image with a shell provisioner and inspect the result
10. Image lifecycle basics: build, test, publish, deprecate and delete
11. Licensing and ecosystem: HashiCorp BSL licensing, HCP Packer and community plugins

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION **Build your first image with Packer**

Install Packer, initialise the Docker plugin and build a container image with a shell provisioner using HCL2.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Packer levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR PACKER TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
