DevOpsSchool

Course curriculum · November 2026

LEVEL 02 OF 04 · ESSENTIAL

Postgresql Essential Training

Write production-quality SQL with joins, window functions, transactions, indexes, JSONB and privileges for team applications.

LIVE ONLINE Max 8-10 hours	**CORPORATE (DAY-WISE)** 2 days · Days 1-2	**SELF-PACED VIDEO** 1-year LMS access
BATCH SIZE Max 10 learners	**NEXT BATCHES** 1st of every month · weekends: first Saturday	**CERTIFICATE** Verifiable certificate of completion

Foundation	Essential	Intermediate	Advanced
1 day · Included	2 days · This curriculum	3 days · Next step	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	24 topics · Foundation to Essential
Hands-on labs	2 labs
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Postgresql course path, you will be able to:

1

Write effective PostgreSQL SQL

Write correct, fast SQL with joins, window functions, CTEs, JSONB and the right indexes.

2

Administer PostgreSQL safely

Install, configure, secure, back up and monitor PostgreSQL servers with confidence.

3

Run PostgreSQL at scale

Design highly available, partitioned and tuned PostgreSQL platforms on servers, cloud and Kubernetes.

WHAT THE ESSENTIAL LEVEL ADDS

Joins, aggregates, transactions, indexes and JSONB

Hands-on: Build an orders reporting database. Model customers, products and orders with foreign keys, load CSV data with COPY, and write join, window-function and JSONB reports.

WHO SHOULD ATTEND

- Learners who know the basics of Postgresql and want to use it confidently every day.
- Professionals taking over Postgresql work on a live project.
- Teams agreeing on a common way of working with Postgresql.

BEFORE YOU START

- The Foundation level, or equivalent hands-on experience.
- You can already: Install PostgreSQL, understand its architecture and create databases, schemas, tables and roles with your first SQL queries.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION TO ESSENTIAL

Postgresql Essential Training agenda

24 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: PostgreSQL architecture, install and basic SQL

Included from Foundation

1. PostgreSQL overview: object-relational design, ACID, MVCC, open-source licence and highlights of PostgreSQL 17 and 18
2. Architecture: postmaster, backend processes, shared buffers, WAL, background writer, checkpointer and autovacuum
3. Installation: PGDG packages on Ubuntu and RHEL, the official Docker image, the Windows installer, initdb and PGDATA
4. Connecting: psql meta-commands such as \l, \c, \dt and \d+, pgAdmin 4 and DBeaver
5. Databases and schemas: CREATE DATABASE, CREATE SCHEMA, search_path and public schema permissions since PostgreSQL 15
6. Data types: integer, numeric, text, varchar, boolean, date, timestamptz, uuid, arrays and jsonb
7. Creating tables: primary keys, identity columns, NOT NULL, DEFAULT and CHECK constraints
8. Basic SQL: INSERT, SELECT with WHERE, ORDER BY, LIMIT and OFFSET, UPDATE, DELETE and RETURNING
9. Roles and login: CREATE ROLE, LOGIN, scram-sha-256 passwords and pg_hba.conf basics
10. Configuration basics: postgresql.conf, listen_addresses, port, SHOW, ALTER SYSTEM, reload vs restart
11. Service management: pg_ctl and systemctl, server logs and checking status with pg_isready

DAY 2 — Essential: Joins, aggregates, transactions, indexes and JSONB

New at this level

12. Joins: inner, left, right, full and cross joins, self joins and USING vs ON
13. Aggregation: GROUP BY, HAVING, COUNT, SUM, AVG, the FILTER clause and GROUPING SETS
14. Subqueries and CTEs: IN, EXISTS, WITH queries and recursive CTEs for hierarchies
15. Window functions: ROW_NUMBER, RANK, LAG, LEAD and running totals with OVER (PARTITION BY, ORDER BY)
16. Keys and constraints: foreign keys with ON DELETE actions, UNIQUE and exclusion constraints
17. Index basics: B-tree, multicolumn, unique and partial indexes, and when an index helps
18. Transactions: BEGIN, COMMIT, ROLLBACK, SAVEPOINT and Read Committed, Repeatable Read and Serializable isolation
19. Views and materialized views: CREATE VIEW, REFRESH MATERIALIZED VIEW CONCURRENTLY
20. JSONB: -> and ->> operators, @> containment, jsonb_path_query and JSON_TABLE in PostgreSQL 17
21. Upserts and MERGE: INSERT ON CONFLICT DO UPDATE, MERGE with RETURNING
22. Data loading: COPY and \copy for CSV, pg_dump and pg_restore for a single database
23. Privileges: GRANT and REVOKE on schemas and tables, ALTER DEFAULT PRIVILEGES and group roles
24. Built-in functions: string functions, date_trunc, age, intervals, generate_series and uuidv7() in PostgreSQL 18

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Install PostgreSQL and build a schema

Install PostgreSQL, create a database, schema and login role, then create tables with constraints and run insert, query and update statements.

ESSENTIAL

Build an orders reporting database

Model customers, products and orders with foreign keys, load CSV data with COPY, and write join, window-function and JSONB reports.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Postgresql levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	2 days for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR POSTGRESQL TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
