DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Postman Foundation Training

Install Postman, send and inspect your first REST requests and organise them into a well-structured collection.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation 1 day · This curriculum	**Essential** 2 days · Next step	**Intermediate** 3 days · Later	**Advanced** 5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	10 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Postman course path, you will be able to:

1

Test APIs with confidence

Send, inspect and assert REST, GraphQL, gRPC and WebSocket requests with Postman.

2

Automate API testing in CI

Run data-driven Postman collections with Newman or the Postman CLI in CI/CD pipelines.

3

Lead API quality at scale

Apply contract tests, performance runs, mocks, monitors and governance across teams.

WHAT THE FOUNDATION LEVEL ADDS

API basics, Postman setup and first requests

Hands-on: Build your first API collection. Create a collection for a public REST API with folders for each resource, sending GET, POST, PUT and DELETE requests with authentication.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Postman and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Postman on real work.
- Leads and managers who want first-hand familiarity with Postman.

BEFORE YOU START

- No prior Postman experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Postman Foundation Training agenda

10 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: API basics, Postman setup and first requests

New at this level

1. API fundamentals: REST, HTTP methods, status codes, headers, path and query parameters, JSON payloads
2. Postman overview: desktop and web apps, the Postman Agent, accounts and personal, team and public workspaces
3. Installation and settings: Postman on Windows, macOS and Linux, proxy settings and SSL certificate options
4. First request: GET requests and the response body, headers, cookies, status, time and size panes
5. Sending data: POST, PUT, PATCH and DELETE with raw JSON, form-data, x-www-form-urlencoded and file uploads
6. Collections and folders: organising, saving, duplicating and describing requests
7. Authorization basics: API Key, Basic Auth and Bearer Token, and inheriting auth from the collection
8. History and Postman Console: request history and viewing raw requests and responses for debugging
9. Code snippets: generating cURL, Python requests, JavaScript fetch and other client code
10. Importing APIs: importing cURL commands, OpenAPI definitions and existing collections

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Build your first API collection

Create a collection for a public REST API with folders for each resource, sending GET, POST, PUT and DELETE requests with authentication.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Postman levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
