DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Prompt Engineering Foundation Training

Explain how LLMs respond to prompts and apply core prompt principles, tools, team practices and risk controls to real work.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation 1 day · This curriculum	**Essential** 2 days · Next step	**Intermediate** 3 days · Later	**Advanced** 5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	14 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Prompt Engineering course path, you will be able to:

1

Write reliable, effective prompts

Use structure, examples, reasoning and grounding to get accurate, consistent LLM outputs.

2

Build LLM-powered applications

Integrate prompts with APIs, tool calling, RAG and MCP, and evaluate them systematically.

3

Operate AI safely at scale

Run agents and prompts in production with security, governance and continuous evaluation.

WHAT THE FOUNDATION LEVEL ADDS

Prompt engineering principles, tools and team practice

Hands-on: Improve prompts for real tasks. In hands-on exercises and group discussion, rewrite weak prompts for your own work scenarios and compare the outputs before and after.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Prompt Engineering and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Prompt Engineering on real work.
- Leads and managers who want first-hand familiarity with Prompt Engineering.

BEFORE YOU START

- No prior Prompt Engineering experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Prompt Engineering Foundation Training agenda

14 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Prompt engineering principles, tools and team practice

New at this level

1. Introduction to prompt engineering: overview of principles and practices and how LLMs turn prompts into outputs
2. Why prompts matter: real-world examples and case studies showing the impact of good and poor prompts
3. How LLMs work: tokens, context windows, temperature, top_p and why outputs vary between runs
4. Key concepts and techniques: clear instructions, context, constraints, examples and an explicit output format
5. Understanding constraints and challenges: hallucination, knowledge cut-off, context limits, cost and latency
6. Problem-solving with prompts: decomposing tasks, step-by-step instructions and explicit decision criteria
7. Faster iteration: optimising prompt iteration cycles in playgrounds and minimising rework
8. Collaboration and communication: teamwork on prompts, shared prompt libraries, reviews and team conventions
9. Tools and technologies: ChatGPT, Claude, Gemini and Copilot, API playgrounds and automation tools
10. Version control for prompts: storing prompts in Git, naming, change history and reuse
11. Agile methodologies and prompt engineering: Agile principles, sprints and managing timelines and deliverables
12. Case studies and best practices: analysing successful prompt projects, common challenges and effective solutions
13. Continuous improvement and learning: feedback loops, evaluating prompt performance and ongoing skill development
14. Risk management: identifying risks, mitigation and contingency plans, balancing speed and quality

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Improve prompts for real tasks

In hands-on exercises and group discussion, rewrite weak prompts for your own work scenarios and compare the outputs before and after.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Prompt Engineering levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR PROMPT ENGINEERING TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
