DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Robotics Foundation Training

Explain how robots sense, think and act, and wire and program a microcontroller to drive motors and read sensors.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	**Essential**	**Intermediate**	**Advanced**
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Robotics course path, you will be able to:

1

Build and program robots

Wire sensors, motors and controllers and program robots that react to their surroundings.

2

Develop ROS 2 robot software

Model, simulate, map and navigate robots using ROS 2, Gazebo, Nav2 and MoveIt 2.

3

Deploy intelligent robots safely

Add AI perception and learned behaviour and deploy robots securely and safely at scale.

WHAT THE FOUNDATION LEVEL ADDS

Robot types, components, electronics and first build

Hands-on: Build a sensor-driven motor rig. Wire a microcontroller, motor driver, DC motors and an ultrasonic sensor, and program the motors to slow down and stop as an obstacle approaches.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Robotics and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Robotics on real work.
- Leads and managers who want first-hand familiarity with Robotics.

BEFORE YOU START

- No prior Robotics experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Robotics Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Robot types, components, electronics and first build

New at this level

1. Introduction to robotics: sense-think-act loop, autonomy levels and where robots are used today
2. Robot types: industrial arms, collaborative robots, mobile robots, drones and humanoids
3. Robot anatomy: frames, links, joints, degrees of freedom, end effectors and power systems
4. Electronics basics: voltage, current, Ohm's law, breadboards, batteries and safe wiring
5. Actuators: DC motors, servo motors and stepper motors, gearing and motor drivers
6. Sensors: ultrasonic, infrared, limit switches, encoders and IMUs (accelerometer and gyroscope)
7. Controllers: Arduino and ESP32 microcontrollers vs Raspberry Pi single-board computers
8. Setting up: Arduino IDE installation, board and port selection and uploading a first program
9. First program: digital and analog I/O, blinking an LED and reading a sensor value
10. PWM motor control: speed and direction control through an H-bridge driver
11. Robot safety: electrical safety, moving-part hazards and emergency stops

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Build a sensor-driven motor rig

Wire a microcontroller, motor driver, DC motors and an ultrasonic sensor, and program the motors to slow down and stop as an obstacle approaches.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Robotics levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR ROBOTICS TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.

Pay by UPI, credit and debit cards, net banking or PayPal. Before you pay, read our refund policy. All levels of this course: www.devopsschool.com/courses/robotics/
