DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Rook Foundation Training

Explain Kubernetes storage and Ceph architecture, and deploy the Rook operator and a first Ceph cluster on Kubernetes.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Rook course path, you will be able to:

1

Deploy cloud-native storage

Deploy Rook and Ceph on Kubernetes and provide block, file and object storage to workloads.

2

Operate Ceph on Kubernetes

Monitor, upgrade, secure and troubleshoot Rook Ceph clusters with confidence.

3

Design resilient storage platforms

Build mirrored, multi-site and tuned Rook Ceph platforms for production applications.

WHAT THE FOUNDATION LEVEL ADDS

Kubernetes storage, Ceph and Rook architecture and install

Hands-on: Deploy a Rook Ceph cluster. Install the Rook operator on a three-node Kubernetes cluster, create a CephCluster on raw disks and check its health from the toolbox and dashboard.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Rook and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Rook on real work.
- Leads and managers who want first-hand familiarity with Rook.

BEFORE YOU START

- No prior Rook experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Rook Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 **Foundation: Kubernetes storage, Ceph and Rook architecture and install** — New at this level

1. Kubernetes storage fundamentals: volumes, PersistentVolumes, PersistentVolumeClaims, StorageClasses and CSI
2. Why Rook: cloud-native storage orchestration, the CNCF graduated project and supported Ceph releases
3. Ceph architecture: MON, MGR, OSD, MDS and RGW daemons, RADOS and the CRUSH map
4. Ceph data placement: pools, placement groups, replication and failure domains
5. Rook architecture: the Rook operator, custom resources, Ceph CSI drivers and the reconciliation loop
6. Prerequisites: raw disks or partitions, LVM, kernel rbd module, node resources and supported Kubernetes versions
7. Deploying the operator: crds.yaml, common.yaml and operator.yaml or the rook-ceph Helm chart
8. Creating a CephCluster: cluster.yaml settings for mons, mgr, storage nodes and device selection
9. Test vs production clusters: cluster-test.yaml for single-node labs and production layouts
10. The Rook toolbox: ceph status, ceph osd tree, ceph df and health checks
11. The Ceph dashboard: enabling and exposing it, logging in and reading cluster health

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION **Deploy a Rook Ceph cluster**

Install the Rook operator on a three-node Kubernetes cluster, create a CephCluster on raw disks and check its health from the toolbox and dashboard.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Rook levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR ROOK TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
