DevOpsSchool

Course curriculum · November 2026

LEVEL 02 OF 04 · ESSENTIAL

Securonix Essential Training

Configure policies, threat models and risk scoring, then triage violations and investigate cases with Securonix analytics.

LIVE ONLINE Max 8-10 hours	**CORPORATE (DAY-WISE)** 2 days · Days 1-2	**SELF-PACED VIDEO** 1-year LMS access
BATCH SIZE Max 10 learners	**NEXT BATCHES** 1st of every month · weekends: first Saturday	**CERTIFICATE** Verifiable certificate of completion

Foundation	Essential	Intermediate	Advanced
1 day · Included	2 days · This curriculum	3 days · Next step	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	22 topics · Foundation to Essential
Hands-on labs	2 labs
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Securonix course path, you will be able to:

1

Operate Securonix SIEM

Onboard data, search events and navigate violations and cases in Securonix.

2

Detect threats with analytics

Use policies, UEBA, threat models and risk scoring to surface high-fidelity threats.

3

Automate and scale detection

Build custom content, SOAR playbooks and governed detection programmes at enterprise scale.

WHAT THE ESSENTIAL LEVEL ADDS

Policies, violations, threat models and investigations

Hands-on: Investigate an insider threat case. Enable insider-threat policies and a threat model, raise a violation chain from lab activity, then triage it and document the case end to end.

WHO SHOULD ATTEND

- Learners who know the basics of Securonix and want to use it confidently every day.
- Professionals taking over Securonix work on a live project.
- Teams agreeing on a common way of working with Securonix.

BEFORE YOU START

- The Foundation level, or equivalent hands-on experience.
- You can already: Explain SIEM and UEBA concepts, navigate the Securonix platform, onboard first data sources and search security events with Spotter.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION TO ESSENTIAL

Securonix Essential Training agenda

22 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: SIEM and UEBA concepts, Securonix platform and navigation

Included from Foundation

1. SIEM and UEBA fundamentals: log management, correlation, behaviour analytics and where Securonix fits
2. Securonix platform overview: cloud-native SIEM, UEBA, SOAR and threat content in Unified Defense SIEM
3. Architecture: SaaS tenant, data lake, ingestion layer and the Remote Ingester Node (RIN)
4. Users and access: login, roles, granular access control and user preferences
5. Navigating the console: Security Command Center, dashboards, violations and cases
6. Data sources and connectors: syslog, Windows events, cloud connectors and API-based collection
7. Installing a Remote Ingester Node: sizing, network requirements and connecting it to the tenant
8. Parsing and normalisation: parsers, the Securonix data model and enrichment with identity data
9. Identity and asset context: HR and directory feeds, users, peers and asset attributes
10. Spotter search basics: search syntax, filters, time ranges and saving searches
11. MITRE ATT&CK in Securonix: how content and violations map to tactics and techniques

DAY 2 — Essential: Policies, violations, threat models and investigations

New at this level

12. Policies: policy types, conditions, analytics such as rare behaviour, spikes and peer anomalies
13. Policy violations: viewing violations, risk scores and supporting events
14. Behaviour analytics: baselining users and entities, peer groups and anomaly detection
15. Threat models and threat chains: chaining violations across the kill chain to raise high-fidelity threats
16. Risk scoring: entity risk, score decay and prioritising the riskiest users and assets
17. Watchlists and lookup tables: whitelists, high-risk users, privileged accounts and threat intelligence lists
18. Threat intelligence: integrating TI feeds and matching IOCs against events
19. Case management: creating cases, assignment, comments, evidence and closure workflows
20. Investigation workflow: pivoting from violations to raw events and related entities
21. Dashboards and reports: building SOC dashboards and scheduled reports
22. Content packages: deploying out-of-the-box use cases for insider threat, cloud and data exfiltration

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Onboard data and search with Spotter

Connect Windows, firewall and cloud logs through a Remote Ingester Node, verify parsing and identity enrichment, and investigate activity with Spotter.

ESSENTIAL

Investigate an insider threat case

Enable insider-threat policies and a threat model, raise a violation chain from lab activity, then triage it and document the case end to end.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Securonix levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	2 days for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR SECURONIX TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
