OUTCOMES

What you will achieve

By the end of the Search Engine Optimization Seo course path, you will be able to:

1

Grow organic traffic

Plan keywords, content and on-page work that match search intent and earn more qualified visits.

2

Master technical SEO

Find and fix crawling, indexing, rendering, speed and structured data issues with confidence.

3

Lead SEO programmes

Run migrations, international and enterprise SEO and adapt strategy for AI-powered search.

WHAT THE ADVANCED LEVEL ADDS

Enterprise, international and AI search

Hands-on: Plan a safe site migration. Build a redirect map, crawl staging and live versions, export Search Console data to BigQuery and monitor rankings and indexing after a simulated migration.

WHO SHOULD ATTEND

- Experienced Search Engine Optimization Seo practitioners responsible for quality, security and scale.
- Senior engineers, architects and leads who design and troubleshoot Search Engine Optimization Seo solutions.
- Teams making Search Engine Optimization Seo an organisation-wide standard.

BEFORE YOU START

- The Intermediate level, or equivalent hands-on experience.
- You can already: Diagnose and fix technical SEO issues, add structured data and earn relevant links that strengthen rankings.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION TO ADVANCED

Search Engine Optimization Seo Advanced Training agenda

46 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: How search works and SEO essentials

Included from Foundation

1. How Google Search works: crawling, rendering, indexing and serving results
2. The modern results page: organic results, featured snippets, People Also Ask, local packs and AI Overviews
3. Google Search Essentials: technical requirements, spam policies and key best practices
4. Search intent: informational, navigational, commercial and transactional queries
5. E-E-A-T: experience, expertise, authoritativeness and trust in helpful, people-first content
6. Keyword basics: seed terms, search volume, difficulty and mapping one primary keyword per page
7. On-page basics: title links, meta descriptions, headings, URLs and image alt text
8. Google Search Console setup: domain property verification, sitemaps and the URL Inspection tool
9. GA4 setup for SEO: organic search traffic, landing page reports and key events
10. CMS SEO: WordPress permalinks with Yoast SEO or Rank Math settings
11. First site check: indexing status, mobile usability, HTTPS and obvious on-page gaps

DAY 2 — Essential: Keyword strategy, content and on-page work

Included from Essential

12. Keyword research workflow: Search Console queries, Keyword Planner, Ahrefs or Semrush and SERP analysis
13. Keyword mapping: grouping keywords by intent, avoiding cannibalisation and assigning target pages
14. Topic clusters: pillar pages, supporting articles and planned internal links
15. Content briefs: outline, questions to answer, entities, word count from SERP review and sources to cite
16. Writing for search: headings that match intent, scannable layout, original data and expert input
17. On-page optimisation: title and meta rewrite tests, header hierarchy, URL slugs and internal anchors
18. Image and video SEO: file names, alt text, compression, video structured data and YouTube optimisation
19. Local SEO basics: Google Business Profile, NAP consistency, categories, photos and reviews
20. Search Console performance analysis: queries, pages, CTR, average position and comparisons
21. Site crawling: Screaming Frog crawl for titles, status codes, redirects, duplicates and thin pages
22. Content refresh: finding decaying pages and updating them for freshness and intent

DAY 3 — Intermediate: Technical SEO, structured data and links

Included from Intermediate

23. Crawl control: robots.txt, meta robots, X-Robots-Tag, crawl budget and parameter handling
24. Canonicalisation: rel=canonical, redirects (301, 308), trailing slashes and www or non-www consistency
25. XML sitemaps: sitemap index files, lastmod accuracy, image and video sitemaps
26. JavaScript SEO: rendering, client vs server rendering, hydration and testing with URL Inspection
27. Core Web Vitals: LCP, INP and CLS, field vs lab data, CrUX and PageSpeed Insights fixes
28. Structured data: JSON-LD for Organization, Article, Product, FAQ, Breadcrumb and LocalBusiness
29. Pagination and faceted navigation: crawlable pagination, filters and index bloat control
30. Hreflang basics: language and region annotations and x-default

31. E-commerce SEO: category pages, product pages, out-of-stock handling and product structured data
32. Link building: digital PR, linkable assets, broken link building and unlinked mentions
33. Link risk: spam policies on link schemes, nofollow, sponsored and ugc attributes
34. SEO reporting: Looker Studio dashboards from Search Console and GA4 with clear KPIs

DAYS 4-5 **Advanced: Enterprise, international and AI search** — New at this level

35. Site migrations: redirect maps, pre- and post-launch crawls, monitoring and rollback criteria
36. International SEO: ccTLD vs subfolder vs subdomain, hreflang at scale and locale content
37. Enterprise SEO: large site architecture, crawl budget at scale and cross-team governance
38. Programmatic pages: quality thresholds, unique value per page and avoiding scaled content abuse
39. Log file analysis: Googlebot behaviour, crawl waste and orphan pages from server logs
40. AI search visibility: AI Overviews, AI Mode, ChatGPT search and Perplexity citations and entity clarity
41. Search Console at scale: bulk data export to BigQuery and SQL analysis of queries and pages
42. SEO automation: Python with the Search Console API, crawl diffs and scheduled checks
43. Algorithm updates: diagnosing traffic drops after core or spam updates and recovery plans
44. Forecasting and business cases: traffic scenarios, revenue estimates and prioritisation
45. SEO in the release process: pre-release checks, CI tests for robots, canonicals and meta tags
46. Capstone: full SEO strategy with technical audit, content roadmap, link plan and KPI dashboard

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION **Set up an SEO baseline**
Verify a site in Search Console, submit its sitemap, connect GA4 and record a baseline of indexed pages, top queries and organic landing pages.

ESSENTIAL **Topic cluster from research to page**
Research and map keywords for one topic, write a content brief, publish an optimised pillar page and link supporting articles to it.

INTERMEDIATE **Technical SEO audit and fix plan**
Crawl a site, find indexing, canonical, Core Web Vitals and structured data issues, fix the top five and verify them in Search Console.

ADVANCED **Plan a safe site migration**
Build a redirect map, crawl staging and live versions, export Search Console data to BigQuery and monitor rankings and indexing after a simulated migration.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Search Engine Optimization Seo levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	5 days for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER
