DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Skipfish Foundation Training

Install Skipfish safely and run a first authorised scan of a lab web application and read the HTML report.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	10 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Skipfish course path, you will be able to:

1

Scan web applications safely

Run authorised Skipfish scans with the right scope, speed and authentication settings.

2

Turn findings into fixes

Validate results, remove false positives and give developers clear remediation steps.

3

Automate security testing

Combine Skipfish with modern scanners in repeatable CI-driven scanning workflows.

WHAT THE FOUNDATION LEVEL ADDS

Web scanning concepts and first Skipfish scan

Hands-on: First Skipfish scan in a lab. Run DVWA in Docker, install Skipfish and perform a first scan with a copied minimal dictionary, then walk through the generated HTML report.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Skipfish and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Skipfish on real work.
- Leads and managers who want first-hand familiarity with Skipfish.

BEFORE YOU START

- No prior Skipfish experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Skipfish Foundation Training agenda

10 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 **Foundation: Web scanning concepts and first Skipfish scan** — **New at this level**

1. Web application security basics: attack surface, HTTP requests and responses, cookies and sessions
2. What Skipfish is: an active web application reconnaissance scanner from Google, written in C
3. How Skipfish works: recursive crawling, dictionary-based probing and security checks on each response
4. Legal and ethical scanning: written authorisation, scope agreements and safe lab targets
5. Installation: Kali Linux package or building from source with libidn and OpenSSL dependencies
6. Project status: last upstream release 2.10b, what that means and why results need verification
7. Lab targets: OWASP Juice Shop, DVWA and bWAPP running in Docker containers
8. First scan: skipfish -o output_dir -W wordlist http://target and watching realtime statistics
9. Dictionaries: minimal.wl, medium.wl, complete.wl and extensions-only.wl and copying a working wordlist
10. Reading the report: index.html summary, issue types, risk levels and the crawled site map

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

First Skipfish scan in a lab

Run DVWA in Docker, install Skipfish and perform a first scan with a copied minimal dictionary, then walk through the generated HTML report.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Skipfish levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
