DevOpsSchool
Lets Learn, Share & Practice DevOps

Day - 1	Day - 2
o What is SonarQube?	• Deep Dive into SonarQube Dashboard
o Benefits of SonarQube?	• Understanding Seven Axis of SonarQube Quality
o Alternative of SonarQube	• Workflow in SonarQube with Maven Project
o Understanding Various License of SonarQube	• Workflow in SonarQube with Gradle Project
o Architecture of SonarQube	• Workflow in SonarQube with MSBuild Project
o How SonarQube works?	• Workflow in SonarQube with Jenkins (CI Integration)
o Components of SonarQube	• Working with Code coverage (Jacoco) and SonarQube
o SonarQube runtime requirements	• Working with Code coverage (NCover) and SonarQube
o Installing and configuring SonarQube in Linux	• Working with IDE with SonarQube Lint
o Basic Workflow in SonarQube using Command line	• Installing more rules using SonarQube Plugins
o Working with Issues in SonarQube	• Working with Project Settings
o Working with Rules in SonarQube	• Basic workflow with SonarQube Owasp
o Working with Quality Profiles in SonarQube	• Adding Custom SonarQube rules
o Working with Quality Gates in SonarQube
