DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Site Reliability Engineering SRE Foundation Training

Set up a working SRE toolchain with Prometheus, Grafana and central logs and measure a service with golden signals.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	10 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Site Reliability Engineering SRE course path, you will be able to:

1

Build an observability stack

Instrument services with Prometheus, Grafana, OpenTelemetry and central logging tied to SLOs.

2

Engineer resilient systems

Use Kubernetes controls, progressive delivery, load tests and chaos experiments to prove resilience.

3

Automate reliability at scale

Run multi-region platforms with self-healing automation, governance and cost awareness.

WHAT THE FOUNDATION LEVEL ADDS

SRE foundations and the observability toolchain

Hands-on: Golden signals dashboard on Kubernetes. Install kube-prometheus-stack on a lab cluster, deploy a demo service and build a Grafana dashboard for latency, traffic, errors and saturation.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Site Reliability Engineering SRE and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Site Reliability Engineering SRE on real work.
- Leads and managers who want first-hand familiarity with Site Reliability Engineering SRE.

BEFORE YOU START

- No prior Site Reliability Engineering SRE experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Site Reliability Engineering SRE Foundation Training agenda

10 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: SRE foundations and the observability toolchain

New at this level

1. SRE fundamentals: principles, SRE roles and how SRE puts DevOps into practice
2. Linux and networking for SRE: processes, systemd, file systems, DNS, TCP and HTTP
3. Cloud and containers recap: virtual machines, Docker images and the Kubernetes objects SREs operate
4. Golden signals in practice: latency, traffic, errors and saturation
5. SLIs, SLOs and error budgets: the vocabulary and simple calculations
6. Metrics with Prometheus: exporters, scraping, time series and labels
7. Dashboards with Grafana: panels, variables and a first service dashboard
8. Logs: structured logging, log levels and central collection with Loki or Elasticsearch
9. Health checks: liveness and readiness probes and synthetic checks with Blackbox Exporter
10. Lab environment: a Kubernetes cluster with Prometheus and Grafana from kube-prometheus-stack

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Golden signals dashboard on Kubernetes

Install kube-prometheus-stack on a lab cluster, deploy a demo service and build a Grafana dashboard for latency, traffic, errors and saturation.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Site Reliability Engineering SRE levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

Profile: www.rajeshkumar.xyz · Videos: youtube.com/@TheDevOpsSchool

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune
