DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Docker Swarm Foundation Training

Understand Docker Swarm architecture and terminology and run your first replicated service on a small swarm.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation 1 day · This curriculum	**Essential** 2 days · Next step	**Intermediate** 3 days · Later	**Advanced** 5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	10 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Docker Swarm course path, you will be able to:

1

Orchestrate containers with Swarm

Run replicated services, stacks, configs and secrets across a multi-node swarm.

2

Build secure HA clusters

Design highly available managers and secure nodes, daemons and clients with TLS.

3

Operate Swarm in production

Control placement, monitor, back up and upgrade swarm clusters with confidence.

WHAT THE FOUNDATION LEVEL ADDS

Swarm concepts, architecture and first service

Hands-on: First swarm with a web service. Build a three-node swarm with docker swarm init and join, deploy a replicated nginx service, publish it through the routing mesh and scale it up and down.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Docker Swarm and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Docker Swarm on real work.
- Leads and managers who want first-hand familiarity with Docker Swarm.

BEFORE YOU START

- No prior Docker Swarm experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Docker Swarm Foundation Training agenda

10 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Swarm concepts, architecture and first service

New at this level

1. Container orchestration basics: why single-host Docker is not enough and what an orchestrator does
2. Introducing Swarm: classic standalone Swarm versus today's built-in swarm mode in Docker Engine
3. Architecture and terminology: managers, workers, nodes, services, tasks and the Raft consensus store
4. Docker Engine setup: installing Docker Engine on Linux hosts and required ports (2377, 7946, 4789)
5. Creating a swarm: docker swarm init, join tokens and docker swarm join
6. Node basics: docker node ls, inspect, promote, demote and availability (active, pause, drain)
7. First service: docker service create, ls, ps and inspect
8. Scaling and replicated vs global services: docker service scale and global mode
9. Publishing ports: the ingress routing mesh and host-mode publishing
10. Rolling updates basics: docker service update with a new image and rollback

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

First swarm with a web service

Build a three-node swarm with docker swarm init and join, deploy a replicated nginx service, publish it through the routing mesh and scale it up and down.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Docker Swarm levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR DOCKER SWARM TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
