DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

TFS Foundation Training

Understand where TFS and Azure DevOps Server fit in ALM and create your first project, work items and repository.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the TFS course path, you will be able to:

1

Administer TFS confidently

Install, upgrade and run Team Foundation Server and Azure DevOps Server with sound backup and security practice.

2

Run end-to-end ALM

Use work tracking, Git and TFVC, build, release, testing and reporting as one traceable lifecycle.

3

Plan modernisation

Plan upgrades, TFVC to Git moves and migration to Azure DevOps Services without losing history or control.

WHAT THE FOUNDATION LEVEL ADDS

ALM concepts, TFS history and first project

Hands-on: Create your first team project. Create a team project with the Agile process, add a backlog of user stories and tasks, push code to a Git repository and run a first CI build.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to TFS and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use TFS on real work.
- Leads and managers who want first-hand familiarity with TFS.

BEFORE YOU START

- No prior TFS experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

TFS Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: ALM concepts, TFS history and first project

New at this level

1. ALM and DevOps concepts: plan, code, build, test and release as one traceable lifecycle
2. From TFS to Azure DevOps Server: product history, versions and what changed with each rename
3. Platform services: Boards, Repos, Pipelines, Test Plans and Artifacts and how they map to TFS features
4. Core hierarchy: server, project collection, team project, teams, areas and iterations
5. Process models: Basic, Agile, Scrum and CMMI and the work item types each one provides
6. Work item basics: creating user stories, tasks and bugs, states, assignments and links
7. Version control choices: Git versus Team Foundation Version Control (TFVC) and when to use each
8. Git basics with TFS: clone, commit, push and pull from Visual Studio, VS Code or the command line
9. Web portal tour: dashboards, backlogs, boards, repositories and pipeline history
10. First build: a simple CI build that compiles a .NET or Java project on every push
11. Roles and access: who administers, contributes, reads or only views as a stakeholder

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Create your first team project

Create a team project with the Agile process, add a backlog of user stories and tasks, push code to a Git repository and run a first CI build.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four TFS levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
