Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Traefik Foundation Training

Understand how Traefik Proxy discovers services and routes traffic, and run it with Docker to expose your first application.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation 1 day · This curriculum	**Essential** 2 days · Next step	**Intermediate** 3 days · Later	**Advanced** 5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Traefik course path, you will be able to:

1

Route traffic dynamically

Configure entryPoints, routers, services and middlewares for Docker and Kubernetes workloads.

2

Secure the edge

Automate HTTPS, authentication and traffic protection and harden Traefik for production.

3

Operate at scale

Monitor, troubleshoot and run highly available Traefik with canary releases and GitOps.

WHAT THE FOUNDATION LEVEL ADDS

Reverse proxy concepts, architecture and first routes

Hands-on: Expose containers through Traefik with labels. Run Traefik and two demo services with Docker Compose, route them by host name and path using labels and inspect the routes in the dashboard.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Traefik and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Traefik on real work.
- Leads and managers who want first-hand familiarity with Traefik.

BEFORE YOU START

- No prior Traefik experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Traefik Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Reverse proxy concepts, architecture and first routes

New at this level

1. Reverse proxies and edge routers: load balancing, TLS termination and why dynamic discovery matters
2. Traefik Proxy overview: open source edge router, Traefik v3 features and where it is used
3. Core concepts: entryPoints, routers, services and middlewares and how a request flows through them
4. Static versus dynamic configuration: CLI flags, traefik.yml and provider-supplied routing
5. Providers: Docker, Kubernetes, file, Consul and other sources of dynamic configuration
6. Installing Traefik: binary, official Docker image and Helm chart options
7. Running with Docker: docker-compose setup, Docker socket access and container labels
8. First routes: Host and PathPrefix rules and exposing a demo whoami service
9. Dashboard and API: enabling, securing and reading routers, services and middleware status
10. Basic logging: Traefik log levels and enabling access logs
11. File provider: defining routers and services in YAML for non-container backends

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Expose containers through Traefik with labels

Run Traefik and two demo services with Docker Compose, route them by host name and path using labels and inspect the routes in the dashboard.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Traefik levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
