Course curriculum · November 2026

LEVEL 02 OF 04 · ESSENTIAL

Ubuild Udeploy And Urelease Essential Training

Design reusable uBuild workflows, configure notifications that reach the right people and troubleshoot broken builds.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **2 days · Days 1-2**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · Included	2 days · This curriculum	3 days · Next step	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	22 topics · Foundation to Essential
Hands-on labs	2 labs
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Ubuild Udeploy And Urelease course path, you will be able to:

1

Automate builds

Create reusable uBuild projects, workflows and notification schemes and troubleshoot failing builds.

2

Automate deployments

Model components, applications and environments and run gated, approved deployments with uDeploy.

3

Orchestrate releases

Coordinate secure, auditable enterprise releases across teams with uRelease and integrated tooling.

WHAT THE ESSENTIAL LEVEL ADDS

UBuild workflows, notifications and troubleshooting

Hands-on: Build a reusable project with notifications. Create a reusable project and workflow for a Java application, fix a failing FindBugs step and set up a notification scheme for build failures.

WHO SHOULD ATTEND

- Learners who know the basics of Ubuild Udeploy And Urelease and want to use it confidently every day.
- Professionals taking over Ubuild Udeploy And Urelease work on a live project.
- Teams agreeing on a common way of working with Ubuild Udeploy And Urelease.

BEFORE YOU START

- The Foundation level, or equivalent hands-on experience.
- You can already: Understand how uBuild, uDeploy and uRelease fit together, install the tools and run your first uBuild project.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION TO ESSENTIAL

Ubuild Udeploy And Urelease Essential Training agenda

22 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: UrbanCode suite concepts, setup and first build

Included from Foundation

1. UrbanCode suite overview: uBuild for builds, uDeploy for deployment automation and uRelease for release coordination
2. Continuous delivery flow: how builds, artifacts, deployments and releases connect across the three tools
3. Architecture: servers, agents, database and artifact repository and how the tools exchange build artifacts
4. Installation: installing a server, configuring an agent and loading plug-ins
5. uBuild projects: creating a new project from a reusable project definition and its details
6. Build processes: creating a new build process and the steps it runs
7. Source configuration: creating a source configuration from a reusable definition for a repository
8. Java Ant build: the Java Ant project type, build targets and generated artifacts
9. Workflows: how a workflow defines the build and enables reuse across many projects
10. First build: running a build process and viewing logs and published artifacts
11. Product lineage: uBuild, uDeploy and uRelease as the IBM UrbanCode family and how teams use them today

DAY 2 — Essential: UBuild workflows, notifications and troubleshooting

New at this level

12. Why use notifications: keeping developers, testers and release managers informed of build results
13. Who, what and when: deciding recipients, events and timing for each notification
14. Event selectors: choosing build events such as success, failure and status changes
15. Recipient generators: committers, project roles and fixed lists as notification recipients
16. Notification messages: message formats, an example notification and customising content
17. Notification schemes: what a notification scheme is and how to use schemes across projects
18. Build workflow design: creating the workflow that defines the build step by step
19. Reusable project definitions: creating the project definition and configuring source and build process definitions
20. Creating the project: defining the repository and configuring the source for a real codebase
21. Fixing a broken build: correcting the FindBugs path and adding a missing property
22. Running and verifying: running the build process, checking artifacts and troubleshooting failures

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Install uBuild and run a build

Install a uBuild server and agent, load the required plug-ins and run a first Java Ant build that publishes its artifacts.

ESSENTIAL

Build a reusable project with notifications

Create a reusable project and workflow for a Java application, fix a failing FindBugs step and set up a notification scheme for build failures.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Ubuild Udeploy And Urelease levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	2 days for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR UBUILD UDEPLOY AND URELEASE TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
