DevOpsSchool

Course curriculum · November 2026

LEVEL 02 OF 04 · ESSENTIAL

Urbancode Deploy Essential Training

Model components and applications, design processes and run approved, gated full and incremental deployments.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **2 days · Days 1-2**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · Included	2 days · This curriculum	3 days · Next step	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	23 topics · Foundation to Essential
Hands-on labs	2 labs
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Urbancode Deploy course path, you will be able to:

1

Model deployments

Model components, applications, environments and properties for repeatable deployments.

2

Control releases

Use snapshots, approvals, gates and schedules to promote releases safely.

3

Administer at scale

Secure, automate and operate UrbanCode Deploy with agents, roles, CLI and plug-ins.

WHAT THE ESSENTIAL LEVEL ADDS

Object model, processes, snapshots and controlled deployments

Hands-on: Promote an application with approvals. Build a multi-component application, create a snapshot and promote it through test and production with an approval and an environment gate.

WHO SHOULD ATTEND

- Learners who know the basics of Urbancode Deploy and want to use it confidently every day.
- Professionals taking over Urbancode Deploy work on a live project.
- Teams agreeing on a common way of working with Urbancode Deploy.

BEFORE YOU START

- The Foundation level, or equivalent hands-on experience.
- You can already: Understand UrbanCode Deploy architecture, install a server and agent and run your first automated deployment.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION TO ESSENTIAL

Urbancode Deploy Essential Training agenda

23 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Deployment automation concepts, architecture and installation

Included from Foundation

1. Deployment automation: why scripted, repeatable releases replace manual runbooks
2. UrbanCode Deploy overview: product history, its IBM DevOps Deploy successor and typical use cases
3. Architecture: server, database, agents, agent relays and the CodeStation artifact repository
4. Installing the server: prerequisites, supported databases and first login to the web console
5. Installing agents: agent installation on Linux and Windows and connecting to the server
6. Web console tour: Dashboard, Components, Applications, Processes, Resources, Calendar and Settings
7. Core vocabulary: components, versions, processes, applications, environments and resources
8. Importing versions: file system, Artifactory and build tool sources for component versions
9. First component process: download artifacts, a shell step and an install step
10. First deployment: deploying one component to one environment and reading the result
11. Plug-in basics: what automation plug-ins provide and where to find them

DAY 2 — Essential: Object model, processes, snapshots and controlled deployments

New at this level

12. uDeploy object model: overview of components, inventory and how they relate to applications
13. Component processes 1: process designer, steps from the plug-in palette and success criteria
14. Properties: system, component, environment, resource and process properties and the p: syntax
15. Reusable component definitions: building components and processes from shared blueprints
16. Component processes 2: switch steps, conditional flows, manual tasks and error handling
17. Applications and application processes: installing multiple components in order
18. Snapshots: overview, creating a snapshot and promoting a tested set of versions
19. Full and incremental deployments: how to execute deployments and choosing between them
20. Comparing environments: inventory differences and version drift across environments
21. Approvals: creating approvals for environments and approval processes
22. Scheduling and gating: how to schedule the deployment and gates that block promotion
23. Application configuration management: shared configuration blueprints and notifications for deployment events

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Install UrbanCode Deploy and deploy once

Install a server and an agent, import a component version from the file system and deploy it to a test environment with a simple process.

ESSENTIAL

Promote an application with approvals

Build a multi-component application, create a snapshot and promote it through test and production with an approval and an environment gate.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Urbancode Deploy levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	2 days for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune

START YOUR URBANCODE DEPLOY TRAINING

Join the next batch

Weekday batches start on the 1st of every month and weekend batches on the first Saturday of every month, with max 10 learners each. 1:1 training can start immediately; corporate batches run on demand. We reply within 1 hour.
