Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Hashicorp Vault Foundation Training

Explain why secrets management matters and how Vault's architecture, seal, tokens and leases protect secrets.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	Essential	Intermediate	Advanced
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Hashicorp Vault course path, you will be able to:

1

Manage secrets centrally

Store, generate and revoke static and dynamic secrets with clear policies and auth methods.

2

Run Vault clusters

Deploy, unseal, monitor, back up and upgrade highly available Vault clusters.

3

Integrate apps and Kubernetes

Deliver secrets and certificates to applications, pipelines and Kubernetes workloads securely.

WHAT THE FOUNDATION LEVEL ADDS

Secrets management concepts and Vault architecture

Hands-on: Explore Vault in dev mode. Start a dev-mode Vault, inspect its status, browse mounts in the UI and observe a token's TTL and lease information.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Hashicorp Vault and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Hashicorp Vault on real work.
- Leads and managers who want first-hand familiarity with Hashicorp Vault.

BEFORE YOU START

- No prior Hashicorp Vault experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Hashicorp Vault Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Secrets management concepts and Vault architecture

New at this level

1. Secrets sprawl: hard-coded passwords, long-lived keys and why centralised secrets management matters
2. What Vault does: securing, storing and tightly controlling access to tokens, passwords, certificates and API keys
3. Architecture: the barrier, storage backend, secrets engines, auth methods and audit devices
4. Seal and unseal: encryption keys, Shamir key shares and the unseal process
5. Tokens and leases: token types, TTLs, renewal and revocation
6. Paths and mounts: how everything in Vault is a path and how mounts organise it
7. Static versus dynamic secrets: why short-lived credentials reduce risk
8. Editions and licensing: Community and Enterprise editions, HCP Vault Dedicated and the OpenBao fork
9. Common use cases: application secrets, database credentials, PKI certificates and encryption
10. Dev mode tour: running vault server -dev to explore paths and the UI in a disposable environment
11. CLI basics: vault status, VAULT_ADDR and VAULT_TOKEN environment variables

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Explore Vault in dev mode

Start a dev-mode Vault, inspect its status, browse mounts in the UI and observe a token's TTL and lease information.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Hashicorp Vault levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
