DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Velero Foundation Training

Understand how Velero backs up Kubernetes resources and volumes, install it with object storage and take your first backup.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation 1 day · This curriculum	**Essential** 2 days · Next step	**Intermediate** 3 days · Later	**Advanced** 5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Velero course path, you will be able to:

1

Back up Kubernetes reliably

Back up and restore cluster resources and persistent volumes with Velero, CSI snapshots and Kopia.

2

Migrate and recover workloads

Move applications between clusters and clouds and restore them consistently with hooks and modifiers.

3

Run disaster recovery

Design, monitor, secure and regularly test a multi-cluster backup and recovery strategy.

WHAT THE FOUNDATION LEVEL ADDS

Kubernetes backup concepts, architecture and installation

Hands-on: Back up and restore a namespace. Install Velero with MinIO as object storage, back up a namespace running a web application, delete it as if by mistake and restore it to working order.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Velero and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Velero on real work.
- Leads and managers who want first-hand familiarity with Velero.

BEFORE YOU START

- No prior Velero experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Velero Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: Kubernetes backup concepts, architecture and installation

New at this level

1. Why Kubernetes backup: etcd snapshots versus application-aware backup, recovery point and recovery time objectives
2. What Velero does: backing up, restoring and migrating cluster resources and persistent volumes
3. Architecture: Velero server, custom resources, node agent DaemonSet and object storage
4. Core resources: Backup, Restore, Schedule, BackupStorageLocation and VolumeSnapshotLocation
5. Storage providers: plugins for AWS S3, Azure Blob, Google Cloud Storage and S3-compatible MinIO
6. Installing the CLI: velero client install, version checks and shell completion
7. Installing the server: velero install flags and the official Helm chart
8. Credentials: cloud credentials files, IAM roles and Kubernetes secrets for plugins
9. First backup: velero backup create for one namespace and describing the result
10. First restore: velero restore create from a backup and verifying the workload
11. Backup contents: how resources are stored in object storage and backup logs

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Back up and restore a namespace

Install Velero with MinIO as object storage, back up a namespace running a web application, delete it as if by mistake and restore it to working order.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Velero levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.

20 years in industry	**200+** corporate trainings
10,000+ engineers mentored	**70+** organisations coached

REVIEWS

What learners say

Rated 4.6 on Google · more reviews at devopsschool.com/testimonials and in our video testimonials.

> “Rajesh is very good trainer. Rajesh was able to resolve our queries and question effectively. We really liked the hands-on examples covered during this training program.”
>
> Indrayani, India

> “The training was very useful and interactive. Rajesh helped develop the confidence of all.”
>
> Abhinav Gupta, Pune
