DevOpsSchool

Course curriculum · November 2026

LEVEL 01 OF 04 · FOUNDATION

Xops Foundation Training

Explain what XOps means, how DevOps principles extend to security, data, ML and cost, and map a value stream end to end.

LIVE ONLINE **Max 8-10 hours**	CORPORATE (DAY-WISE) **1 day · Day 1**	SELF-PACED VIDEO **1-year LMS access**
BATCH SIZE **Max 10 learners**	NEXT BATCHES **1st of every month · weekends: first Saturday**	CERTIFICATE **Verifiable certificate of completion**

Foundation	**Essential**	**Intermediate**	**Advanced**
1 day · This curriculum	2 days · Next step	3 days · Later	5 days · Later

INSIDE THIS CURRICULUM

What you will achieve	Outcomes and level focus
Who should attend	Audience and prerequisites
Agenda	11 topics · Foundation
Hands-on labs	1 lab
Formats and fees	Live, 1:1, self-paced, corporate
Trainer and reviews	Rajesh Kumar
Enrolment	Batches, payment, contacts

WHY DEVOPSSCHOOL

- Rated 4.6 on Google
- 1,500+ verifiable certificates issued in the public registry
- Trainer Rajesh Kumar: 20 years in industry
- Small batches: max 10 learners, every session recorded

OUTCOMES

What you will achieve

By the end of the Xops course path, you will be able to:

1

Understand the XOps landscape

Explain how DevOps, SecOps, DataOps, MLOps, AIOps and FinOps fit together and when to apply each.

2

Automate across domains

Build pipelines that deliver applications, infrastructure, data and models with security built in.

3

Lead XOps adoption

Design platforms, governance and metrics that scale XOps across teams and organisations.

WHAT THE FOUNDATION LEVEL ADDS

XOps philosophy, DevOps principles and cloud basics

Hands-on: Map a value stream and first pipeline. Map the delivery value stream of a small application, identify bottlenecks and create a first CI workflow that builds and tests it on every commit.

WHO SHOULD ATTEND

- Beginners and working professionals who are new to Xops and want a solid, hands-on start.
- Engineers, analysts, testers and students preparing to use Xops on real work.
- Leads and managers who want first-hand familiarity with Xops.

BEFORE YOU START

- No prior Xops experience is needed.
- Basic computer skills and a laptop with a stable internet connection for the live sessions and labs.
- This curriculum includes every earlier level, so it is complete on its own.

AGENDA · FOUNDATION

Xops Foundation Training agenda

11 topics. Each level builds on the one before it, so this curriculum lists every earlier level in full. Days are for corporate (day-wise) delivery; live online batches cover the same agenda in max 8-10 hours.

DAY 1 — Foundation: XOps philosophy, DevOps principles and cloud basics

New at this level

1. Introduction to XOps: philosophy, history and benefits of applying operations discipline across domains
2. The Ops family: DevOps, DevSecOps, DataOps, MLOps, AIOps, FinOps and GitOps and what each optimises
3. Understanding DevOps: CALMS, the Three Ways and how DevOps practices underpin the XOps framework
4. Value streams: mapping flow from idea to production and finding handoffs and waiting time
5. Measuring delivery: DORA metrics for deployment frequency, lead time, change failure rate and recovery time
6. Introduction to cloud computing: IaaS, PaaS and SaaS, regions, shared responsibility and pricing models
7. Virtualization and containerization: VMs versus containers and why containers suit XOps
8. Collaboration foundations: Git workflows, pull requests and trunk-based development
9. Toolchain overview: version control, CI/CD, infrastructure as code, observability and security tools
10. Culture and teams: product teams, platform teams, blameless post-incident reviews and shared ownership
11. First pipeline: a simple build-and-test workflow triggered by a commit

PRACTICE

Hands-on labs

You build these yourself during the course, guided by the trainer.

FOUNDATION

Map a value stream and first pipeline

Map the delivery value stream of a small application, identify bottlenecks and create a first CI workflow that builds and tests it on every commit.

HOW YOU CAN LEARN

Formats and fees

The same agenda in four formats. Fees are in Indian rupees as of November 2026; the course page shows them in your currency.

FORMAT	DURATION	WHAT YOU GET	FEE
Live & interactive (online)	Max 8-10 hours	Instructor-led public batch of max 10 learners with demos, labs, Q&A and assignment review. Weekday batches start on the 1st of every month, weekend batches on the first Saturday of every month.	**INR 34,999**
1:1 live training (online)	Max 8-10 hours, one-to-one	The same agenda, taught one-to-one by the trainer. Starts immediately, without waiting for the next batch; sessions planned around your working hours, at your pace.	**INR 99,999**
Self-paced video	1-year LMS access	All four Xops levels, plus 20+ more courses and 50+ tools, at your own pace.	**INR 833/month** billed yearly at INR 9,996
Corporate (day-wise)	1 day for this level	A private batch for your team, on demand. Foundation 1 day, Essential 2, Intermediate 3, Advanced 5 (cumulative).	**Quote on request**

ASSESSMENT AND CERTIFICATE

Your progress is checked through hands-on labs and assignments at every level. On completion you receive a DevOpsSchool certificate of completion with a unique credential ID that anyone can verify at devopsschool.com/certificates.

INCLUDED WITH EVERY LIVE BATCH

- Every live session is recorded and stays in your LMS for a year.
- Can't attend your batch? Move to next month's batch.
- Free demo class before you pay.
- Free 10-15 minute call with an advisor or the trainer to check the course fits you.

YOUR TRAINER

Learn from Rajesh Kumar

Principal Architect, trainer and mentor in DevOps, SRE, DevSecOps and platform engineering, with 20 years across 8+ software MNCs, including Staff DevOps/SRE Engineer for a leading Japanese mobile-payment platform and Principal DevOps Architect and Manager in Europe.
